FINANCIAL COMMISSIONER'S OFFICE.

CIRCULAR MEMO. No. 2 OF 1894.

Dated Lahore, the 11th January 1894.

FINANCIAL COMMISSIONER'S OFFICE.

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

COPY of Punjab Government No. 818, dated 18th November 1893, and of its enclosures, forwarded to all Commissioners and Deputy Commissioners in the Punjab, for information and guidance.

Deputy Commissioners to furnish certificates of price of ghurras on the application of Commanding Officers.

Deputy Commissioners should in future furnish certificates of the price of "ghurras" on the application of Commanding Officers.

By order,

(*Translated.*)

HARI KISHEN KAUL,

Offg. Junior Secretary to Financial Commissioner, Punjab.

No. 818, dated 18th November 1893.

From—The Officiating Revenue Secretary to Government, Punjab,

To—The Senior Secretary to Financial Commissioner, Punjab.

Controller of Military Accounts No 1053, dated 9th June 1893, and enclosures.
Punjab Government No. 600, dated 13th August 1893.
Controller of Military Accounts, No 1964, dated 17th August 1893.
Punjab Government No. 709, dated 6th October 1893.
Controller of Military Accounts No. 2794, dated 21st October 1893.

I AM directed to forward, for the information of the Financial Commissioners, a copy of the correspondence noted in the margin, and to request that instructions may be issued to District Officers to furnish certificates of the price of "ghurras" on the application of Commanding Officers.

No. 1053, dated 9th June 1893.

From—The Controller of Military Accounts, Western Circle, Bengal,

To—The Revenue Secretary to the Government of the Punjab.

IN forwarding copies of the correspondence marginally noted, I have the honor to request the favor of the necessary instructions being issued in view to "ghurras" being included in the list of articles requiring price currents from Civil Officers, published with the Punjab Financial Commissioner's Circular No. 6 of 1890, Appendix B. This will complete the list of articles requiring price currents.

Letter No. 4872, dated the 22nd March 1893, to the Secretary to the Government of India, Military Department.
Reply No. 1847 F., dated the 2nd June 1893.

Vide Punjab Government Gazette, Part III, dated 23rd January 1890.

No. 4872, dated the 22nd March 1893.

From—The Controller of Military Accounts, Western Circle,

To—The Secretary to the Government of India, Military Department.

I HAVE the honor to state that charges for fire ghurras are required to be supported amongst other vouchers (*a*) by Civil price currents. A charge of this nature appeared in the accounts of the 2-5th Gurkhas for June 1892, and the usual price current was called for, but the Officer Commanding was unable to furnish one, the Deputy Commissioner, Hazára, having declined (*b*) to furnish market quotation for the article on the authority of Military Department letter quoted in the margin (*c*).

(*a*) Item 31, page 43, No. II of the list of vouchers required to support credits and charges in general states, &c.

(*b*) *Vide* copy of letter No. 1741, dated the 26th September 1892, from Deputy Commissioner, Hazára.

(*c*) Military Department No. 2670 F. *Compensation*, Dearness of provisions and forage, dated the 15th October 1890, to the Secretary to the Government of the Punjab, Revenue Department.

2. The item No. 31 of the list of vouchers above quoted is based on late Bengal Controller's Circular No. 625 of 1885, and it is necessary for the Audit Department to call for vouchers which are required by regulations. It has been ascertained from the Controller of Military Accounts, Eastern Circle, that the Civil Officers in that Circle do not refuse to furnish price currents for ghurras.

3. Under these circumstances I beg that Government will be pleased to move the Punjab Government in view to prices current for the article in question being furnished by Civil Officers in the Punjab to Officers Commanding Regiments, when demanded.

No. 1847 F., dated Simla, the 2nd June 1893.

From—The Secretary to the Government of India, Military Department,

To—The Controller of Military Accounts, Western Circle.

WITH reference to the correspondence ending with your letter No. 707, dated the 17th May 1893, I am directed to inform you that you should address the Government of the Punjab in view to ghurras being included in the list of articles requiring price currents from Civil Officers, published with the Punjab Financial Commissioner's Circular No. 6 of 1890; you should explain that this will complete the list of articles requiring price currents.

2. I am to say that if the Government of the Punjab are unable to sanction your request, you might then refer the question for the orders of the Government of India.

No. 1741, dated the 26th September 1892.

From—The Deputy Commissioner, Hazára,

To—The Officer Commanding 2-5th Gurkhas.

I HAVE the honor to acknowledge receipt of your No. 278 of 21st instant, forwarding a copy of an extract from some remarks by the Pay Examiner in audit of accounts.

The Pay Examiner apparently demands a certificate of the price of ghurras to be furnished by the Civil authorities, and he states that the standing orders in the Civil Department as to price currents "have been declared by Government, in Government of India No. 2670 F. of 15th October 1890, not to apply to price currents required by this branch."

I can only say that the letter quoted does not bear out the contention of the Pay Examiner.

The words of the Circular are :—

"The Military Department has instructed all Military Account Officers to dispense with market price quotations in the case of all articles other than those for which under the Army Regulations they are expressly entitled to demand such quotations; and Collectors should decline to furnish price currents or to give any information regarding prices in the case of such articles."

"The Civil authorities are not in a position to certify prices other than those of a few main raw provisions, and when the list is indefinitely extended, a Civil Officer has no real power to check the reports of his subordinates, and a door is opened for very considerable laxity of practice."

The correspondence of 1890, which is quoted by the Pay Examiner, arose from representations made by me pointing out that the prescribed list of articles did not include dál and ghi which enter into the question of compensation for dearness of rations of native troops, and the orders of the Government of India, Military Department, in their letter No. 2670 F of 15th October 1890, to the Punjab Government, were that Civil Officers should furnish price currents in support of claims to compensation for dearness of forage and food consisting of the articles and qualities shewn in articles (*sic*) 171, 196, 423 and 424, Army Regulations, India, Volume I, Part II.

I have looked up the Army Regulations and cannot find in the paragraphs quoted or anywhere else that "ghurras (earthen)" are an article of forage for horses, or part of the rations of sepoys or camp followers.

The question whether or not I should be asked to enquire now in September what ghurras sold for in Abbott-abad in June may seem in this individual instance a petty one, but is not a petty matter that Civil Officers should be asked to certify prices of other than the staple articles of food and supplies, and I believe it was the intention of Government that certificates of a Civil Officer should be called for only in case of those articles. Unless the line is drawn somewhere and some restriction is imposed, I may be asked, as I have been, to quote prices for "buckets (leather)," "tarpaulins" and "doolis," and many other things neither made nor sold nor procurable in Abbott-abad. As a matter of fact if I wished to ascertain the price of ghurras in June, I should probably have to ask you what you paid for them. At any rate, I incline to think that I could not adopt any better process for learning what was their "price current."

No. 600, dated 12th August 1893.

From—The Officiating Revenue Secretary to Government, Punjab,

To—The Controller of Military Accounts, Western Circle, Bengal.

I AM directed to acknowledge the receipt of your letter No. 1053 of 9th June 1893, asking that instructions may be issued with a view to "ghurras" being included in the list of articles entered in price currents supplied by Civil Officers.

2. In reply, I am to enquire whether it is desired that "ghurras" should be added to the list of articles given in Appendix B, Form 1, to Financial Commissioner's Circular No. 6 of 1890. That form corresponds exactly with Commissariat Form No 143, and it is understood that it is only required by the Commissariat Department, and that Officers in command of regiments are not entitled to ask Civil Officers to furnish it. In accordance with the principle laid down by the Government of India, Military Department in their letter No 2670, dated 15th October 1890, to this Government, Commanding Officers in the Punjab are apparently only entitled to demand from District Officers certificates as to the price of the limited number of articles referred to in paragraphs 171, 423 and 424 of the Army Regulations, India, Volume I, Part II, when such certificates are required in support of bills for compensation for dearness of food and forage.

3. A copy of the Financial Commissioner's Circular referred to and of Government of India No. 2670 F., dated 15th October 1890, are herewith enclosed for facility of reference.

No. 1964, dated 17th August 1893.

From—The Controller of Military Accounts, Western Circle, Bengal,

To—The Officiating Revenue Secretary to Government, Punjab.

IN acknowledging the receipt of your letter No 600 "General" dated the 12th instant, I have the honor to state that as Officers Commanding regiments are not entitled to be supplied with prices current in Appendix B, Form 1, to the Financial Commissioner's Circular No. 6 of 1890, and as in accordance with prescribed procedure they are required to support charges in their accounts for the purchase of 'ghurras" by certificates of their price from District Officers, and the latter refuse to furnish the certificates unless authorized to do so by competent authority, I would ask that District Officers be requested to furnish such certificates on the application of Commanding Officers.

No. 709, dated 6th October 1893.

From—The Officiating Revenue Secretary to Government, Punjab,

To—The Controller of Military Accounts, Western Circle, Bengal.

WITH reference to correspondence ending with your letter No. 1964, dated 17th August 1893, I am directed to say that the Lieutenant-Governor is willing either to order Deputy Commissioners to add ghurras to the articles included in Commissariat Form No. 143 as requested in your No. 1053, dated 9th June, or to have ghurras added in the fortnightly price currents published in the Gazette, a specimen of which is enclosed. I am to ask which course will best meet the requirements of your office.

No. 2794, dated 21st October 1893.

From—The Controller of Military Accounts, Western Circle, Bengal,

To—The Officiating Revenue Secretary to Government, Punjab.

IN reply to your letter No. 709 Revenue—General, dated the 6th instant, I have the honor to request that as Commissariat Form No. 143 and the *Punjab Gazette* in which fortnightly price currents are published are not received by Commanding Officers, District Officers may be instructed to furnish certificates of the price of "ghurras" on the application of Commanding Officers.

CHIEF COURT.

BOOK CIRCULAR No. I—701 G.

To

ALL DIVISIONAL AND DISTRICT JUDGES IN THE PUNJAB.

Dated Lahore, the 12th February 1894.

Revision of process-serving establishments.

A REVISED scale of process-serving establishments for districts was published with Book Circular No. XXI—4513 G., dated the 10th November 1890, in continuation of Judicial Circular No. CXXXII of the volume of Judicial Circulars, 3rd edition. A corrected schedule was subsequently issued with the Court's No. 203 G., dated the 16th January 1892. Certain further proposals were submitted to Government in August 1892,* and these have now been partially sanctioned by the Supreme and Local Governments and are herewith published for information and guidance.

* No. 3690 G., dated the 25th August 1892, from Registrar, Chief Court, to Secretary to Government.
No. 1179, dated the 14th December 1892, from Secretary to Government, to Registrar, Chief Court.
No. 474 G., dated the 26th January 1893, from Registrar, Chief Court, to Secretary to Government.
No. 1025, dated the 16th October 1893, from Secretary to Government to Registrar, Chief Court.

2. The annexed schedule contains the scale of process-serving establishment allowed to all Courts and offices as now sanctioned. It consists of three parts, namely:—

PART A.—Commissioners and Divisional Courts.
PART B.—Cantonment Magistrates and Small Cause Courts.
PART C.—District Courts.

3. The only changes made in PART A—*Commissioners and Divisional Courts*—since the publication of the schedule in the volume of Judicial Circulars, 3rd edition, are, that the Divisional Judge of Umballa has, on special grounds, been allowed an extra process-server on Rs. 6 per mensem, under the authority of Chief Court letter No. 289 G., dated the 25th January 1892, and that under the authority of Punjab Government letter No. 153, dated the 3rd February 1894 (Home-Judicial), all process-servers now sanctioned for Divisional Courts will in future draw Rs. 6 per mensem.

4. With regard to PART B—*Cantonment Magistrates and Small Cause Courts*—a revised scale was issued with Book Circular No. III—1392 G., dated the 19th March 1891; this remains unaltered.

5. In PART C—*District Courts*—the changes introduced in the year 1890 added the following grades of officers to those previously sanctioned, namely:—

14 Civil Nazirs, 1st Grade, on	Rs. 25 *per mensem.*
17 " " 2nd " on	" 20 " "
40 Madad Muharrirs for Munsifs' Courts on	" 10 " "
72 Madad Náib Názirs for outlying Courts on	" 10 " "
102 Execution Bailiffs on	" 8 " "

The proposals which have now received the sanction of the Supreme and Local Governments involve an increase of expenditure amounting to Rs. 22,368 *per annum*, which will be met from the income from fees and commissions hitherto allowed to Názirs, Naib Názirs and others, which will in future be credited to Government.

The increased establishments allowed in lieu of fees and commissions are as follows:—

(1). The amount of the salaries of the 31 District Názirs is increased from Rs. 1,705 to Rs. 2,640 *per mensem*, being an increase of Rs. 11,220 *per annum*, subject to a reduction of Rs. 50 *per mensem* when the present incumbents at Delhi and Lahore cease to hold the office of District Názir. It is to be noted that the sum of Rs. 930 of the present monthly salaries of District Názirs is charged to Provincial Revenues and Rs. 775 to Process Fees; the latter amount is now increased to Rs. 2,640. The District Názir will draw Rs. 100 *per mensem* in each of the nine districts in which civil business is most heavy, Rs. 85 in each of the four districts next in importance, and Rs. 75 in each of the remaining districts (except Kulu Civil District).

(2) All Civil Názirs will in future receive a uniform rate of pay, namely Rs. 25 *per mensem*, being an increase of Rs. 1,020 *per annum.*

(3) One Náib Názir in each district will draw Rs. 20 *per mensem* instead of Rs. 15, being an increase of Rs. 1,860 *per annum.*

(4) The number of execution Bailiffs is raised from 102 to 150, and of this number 75 will draw Rs. 10 and 75 Rs. 8 *per mensem*, being an increase of Rs. 6,408 *per annum.*

(5) The following increases in establishments have been sanctioned in particular districts :—

	Increase.
	Rs.
Hissar and Rohtak—Hissar two and Rohtak one *Madad Náib Názirs* at Rs. 10	=360
Simla—Eight process-servers on Rs. 5 will draw Rs. 6 *per mensem.* *Kángra*—Thirty-five process-servers on Rs. 5 will draw Rs. 6 *per mensem.* *Kulu*—Nine process-servers on Rs. 5 will draw Rs. 6 *per mensem.*	=624
Ráwalpindi—Three process-servers on Rs. 6 *per mensem* and one *Náib Názir* on Rs. 15 *per mensem* are allowed for Murree six months and Ráwalpindi six months ;	=396
Gurdáspur—Three process-servers on Rs. 6 *per mensem* are allowed for Dalhousie six months and Gurdáspur six months.	=216
Gujránwála—Two process-servers on Rs. 6 and 2 on Rs. 5 per mensem ;	=264

6. In submitting their proposals to Government, the Judges pointed out that they considered it desirable that when financial considerations permitted an increase of expenditure, the pay of Civil Názirs should be raised from Rs. 25 to Rs. 30 *per mensem* ; that of *Madad Muharris* and *Madad Náib Názirs* from Rs. 10 to Rs. 15 ; and that of all process-servers on Rs. 5 to Rs. 6 *per mensem.* At present these proposals must remain in abeyance.

7. From the 1st March 1894 all payments of fees and commissions on sales of property in execution of decree or otherwise to ministerial officers of the Courts will cease, and the fees and commissions allowed by law or the rules and orders of the Court will be credited to Government. From the date on which this instruction is acted on in each district the process-serving establishment may be raised to the scale shown in Part C of the annexed schedule.

8. These orders do not affect fees and commissions dealt with under the Insolvency Fund Rules made under the Insolvency Provisions of Act IV of 1872 or Chapter XX of the Code of Civil Procedure (*vide* Rules and Orders, Volume I, Nos. XII and XXXVIII).

9. Attention is invited to Rules and Orders, Volume I, No. V, Rule XXXVII, which takes the place of the rules contained in paragraph 45 of Judicial Circular No. XXVII of the volume of Judicial Circulars, 3rd edition, in regard to the disposal of fees and commissions.

10. It will be observed that the present incumbents of the office of District Názir at Lahore and Delhi are granted a personal allowance of Rs. 25 per mensem in addition to the fixed salary of Rs. 100. This is intended to compensate them for the loss of commission, which in their case will be considerable. The Názirs in some other districts may possibly suffer a slight reduction of emoluments, but this cannot be avoided, and they will on the other hand benefit by the permanent increase in the fixed salary paid to them by Government with its corresponding increase in position and pension.

11. The Judges hope that the increased scale of process-serving establishments now sanctioned will result in greater efficiency in the management of execution of decree business and in the service of processes.

By order, &c.,

E. W. PARKER,

Registrar.

GOVERNMENT OF INDIA.

MILITARY DEPARTMENT.

Fort Wiliam, the 15th December 1893.

To

THE SECRETARY TO THE GOVERNMENT OF BOMBAY,
PUBLIC WORKS DEPARTMENT.

SIR,

I AM directed to acknowledge the receipt of your letter No. 1862, dated the 7th September 1893, submitting, for the issue of a definite ruling, a question raised by the Quartermaster-General, Bombay Army, as to whether, in the face of the orders contained in Military Department letter No. 2281-M. W., dated the 19th July 1893, which authorize the construction, without the previous sanction of the Government of India in the Military Department, of railway staff quarters on railway lands within cantonment limits, provided that there is no fort in the vicinity of such lands, paragraphs 58 and 59, Chapter III, of the Cantonment Rules framed under Bombay Act III of 1867 are applicable to railway companies and the general public.

2. In reply, I am to state, for the information of His Excellency the Governor in Council, that it is not the intention of the Government of India that the orders contained in the Military Department letter quoted above should supersede the existing rules that regulate the construction, within cantonment limits, of temporary or permanent structures and the mode of their construction. I am therefore to say that the cantonment committees

should, as hitherto, be referred to by railway companies and by the general public before any building, whether permanent or temporary, is erected within cantonment limits, and that Railway Companies or other parties should, as heretofore, be guided by the orders that the Committee may pass in the exercise of the powers conferred on them under the Cantonment Rules.

I have, &c.,

(Signed) J. DALLAS, CAPTAIN, R.E.,

for *Secretary to the Government of India.*

COPIES, in continuation of Military Department No. 2281-M. W., dated the 19th July 1893, forwarded to—

CIRCULAR No. 1.

FINANCIAL COMMISSIONER'S OFFICE,

Dated Lahore, 7th March 1894.

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

THE following instructions are issued for the preparation of District Reports and Returns of Income Tax operations for the year 1893-94.

2. The forms of the six prescribed Returns remain unaltered, and the instructions for the preparation of these Returns issued in the circulars of former years remain applicable. For the sake of convenience these instructions (with very slight modification)

are re-printed in the memorandum annexed to this circular. Return III should be sent as quickly as possible to the Accountant-General for verification; and any discrepancies which may be discovered should be cleared up, and this Return submitted with the other Returns to this office.

3. The District Reports and Returns are due from Commissioners by the 1st May.

Divisional Reports are not required. The District Reports will be forwarded by Commissioners with their own remarks, and the Returns should be carefully checked in the offices of Commissioners before submission to this office.

4. The District Reports should be prepared generally on the following lines:—

(*i*) The Final Demand (columns 8 and 9 of Return IV) for the year under report should be compared with the figures of previous years. Special attention should be given to the separate comparison of the figures under Part IV, Schedule II of the Act, with those of previous years, and the causes of increase or decrease should be explained. The explanation should include an analysis of the assessment under Part IV of the list, showing in what classes of incomes changes have been most remarkable, and variations in the number of assessees in the lowest class should be specially noted.

(*ii*) The Original Demand should be compared with the Final Demand, and the result of proceedings in revision by the Collector and Commissioner should be noticed. Any considerable reduction of the original demand under Part IV by revision is presumptive evidence of an injudicious assessment, and should therefore be explained.

(*iii*) The subject of collections and balances should be noticed, and full explanation of outstanding balances should be given.

(*iv*) The working of the Act should be reviewed in special reference to the following matters:—

(*a*) Method of assessment of incomes under Part IV:

(*b*) Fines and Penalties:

(*c*) Procedure in Revision cases under Chapter IV of the Act. Statistics of the disposal of petitions of objection by the Collector and his subordinates, and of the results of the proceedings should be given.

(*d*) Any special cases which have occurred may be noted, and any remarks which the Collector may desire to make on the working of the Act may be added.

(*v*) The statistics of incidence of the tax in large towns, Civil stations and Cantonments should be noted, and any remarks regarding the incidence in rural tracts may be added.

(*vi*) Estimates of the amount of assessments for the ensuing year should be given.

By order, &c.

HARI KISHEN KAUL,

Offg. Junior Secretary to Financial Commissioner, Punjab.

(*Translated.*)

Memorandum regarding the Annual Income Tax Returns of the Punjab.

Return I.—For this the figures are procured independently of the District Offices.

Return II.—This return shows realizations from interest on securities under Part III of the second schedule to the Act. District Officers will fill in the particulars required by columns 7 and 8, which relate to securities issued by local authorities or companies, *vide* Part III, clause (*c*), of the second schedule. They will have nothing to do with the filling in of columns 3 to 6, the figures for which will be supplied by the Accountant-General.

Return III.—(*i*). Columns 3 and 4 are not to be filled up in District Offices, and column 13 is to correspond to column 8, Return II.

(*ii*). Return III is to show total collections during the year under report, whether on account of that year or of previous or succeeding years. In the columns up to 20 inclusive—subject to (*i*) above—all receipts should be shown whether refunds have been subsequently made under Chapter IV of the Act or otherwise. Sums received on account of other districts should be included in Return III of the district *where the payment is actually made* and not in Return III of the district on account of which it was made. It follows that column 20 should show a total in complete accordance with the figures of the Accounts Department.

(*iii*). Column 21 (Refunds) should similarly include all refunds actually made during the year under report, whether on account of that year or of previous years, and whether made under Chapter IV of the Act, or Section 33 or otherwise. The total of the column should therefore agree with the figure of refunds in the books of the Accountant-General. It should be stated in the column of remarks what amount (if any) of the total refunds entered in column 21 was on account of refunds to Government servants whose income tax realizations are made by Accountant-General.

(*iv*). Return III as originally prescribed had no column for miscellaneous receipts, though the Accountant General has an entry of this kind in his books. A column for these receipts (No. 19*a*) has been added; and the heading of column 20 must be "total of columns 17, 18, 19 and 19*a*."

Return IV.—(*i*). The entries by Deputy Commissioners in this Return under Part I should not include deductions from salaries, pensions, annuities and gratuities paid by Government, but only from those paid by local authorities, companies, public bodies, associations and private employers.

(*ii*). The entry opposite Part III should show only the tax on interest on securities of local authorities or companies—see column 8, Return II—and should not include tax on interest on Government securities. Columns 3, 4, 6 and 8 opposite Part III may be left blank.

(*iii*). For the Return generally the following directions should be very carefully followed:—

(*a*). Fill up columns 3, 5 and 7 throughout.

(*b*). Treat the Return as an *administrative* one. "Demand" means demand *on account of the year under report* only. Collections, if any, in the previous year on account of the year under report should be included. Demand under all heads on account of previous years, and collections under all heads during the year under report on account of previous years, should be shown only in columns 14 and 19 respectively. Collections during the year under report on account of the ensuing year should be entirely excluded; as also should sums collected and afterwards refunded or ordered to be refunded. Sums collected in one district on account of another are to be included in Return IV of the district *on account of which* the collection was made, and *not* in Return IV of the district in which the collection was made.

(*c*). Column 14 should agree with column 21 of the preceding year's return, or an explanation of the discrepancy should be given.

(*d*). Column 15 should equal column 20 + column 21, or an explanation of the discrepancy should be given. Column 21 should show only *recoverable balances*.

(*e*). It follows that the totals of column 22, Return III, will in most districts differ from the total of column 20 of Return IV. The difference, if any, should be fully explained in a + — account in the "Remarks" column of Return IV.

(*iv*). As in the case of Return III, this Return should show miscellaneous receipts. Columns 13*a* and 18*a* have been added for this purpose, the first for demand and the second for collections. The proper heading of column 15 is therefore "total of columns 9, 11, 13, 13*a* and 14."

Return V.—This is also an administrative Return. No entries should be made by Deputy Commissioners on account of salaries, &c., paid by Government. This return is intended to show details of demand and not of collections, and columns for Grand Total opposite "Abstract I Salaries—others" should therefore correspond to the figures in columns 8 and 9, Return IV, opposite Part I; columns for Grand Total opposite "Abstract II—Companies" should correspond to columns 8 and 9, Return IV, opposite Part II; columns for Grand Total opposite "Abstract IV—Other Sources," should correspond to columns 8 and 9, Return IV, opposite Part IV.

Return VI.—This Return shows the expenditure and presents no difficulties. It should include the pay and deputation allowances of officers on special duty, and the pay of District, Tahsil and Cantonment Muharrirs. Travelling allowance should not be debited to income tax expenditure unless an officer goes into camp for the sole purpose of the administration of the income tax. The charges for country paper, lithography, &c., for income tax need not be kept separately from the general district expenditure under these heads, nor need they be shown in this Return.

N. B.—In the Returns generally only whole rupees should be entered. Fractions of a rupee less than eight annas should be neglected, eight annas or more being counted as a whole rupee.

Addenda and Corrigenda to Punjab Revenue Circulars.

No. 450.

Page No. 520, Circular No. 51, for paragraphs 5 and 5 A. substitute the following:—

5. Casual proposals for the reduction in the number of headmen in an estate should be made to the Financial Commissioner by transmission of the files in original through the Vernacular Office, together with an English abstract in Form A appended. When, however, a district is brought under resettlement, and the Settlement Officer finds that a reduction in the existing number of headmen is required in the interests of good administration in a considerable number of villages throughout such district or in any particular tahsíls, he shall prepare a scheme for effecting the necessary reductions gradually as vacancies occur. In determining what appointment should be retained and what abolished, special attention should be paid to the composition of the village proprietary body; to the circumstances under which existing appointments became vested in certain families, and to the present position and influence of these families. The Settlement Officer's proposals should be reported for the Financial Commissioner's orders in the following form :—

1	2	3	4	5	6	7
Name of Tahsil.	Name of village.	Names of the various pattis or tarafs.	Name of each existing headman with his tribe or caste, amount of land owned and revenue paid thereon, and amount of revenue for whose collection he is responsible.	Proposals of Settlement Officer with reasons there for.	Opinion of Commissioner.	Orders of Financial Commissioner.

The Settlement Officer should announce his proposals to the parties affected by them, and before the Commissioner forwards the scheme to the Financial Commissioner, he should allow an opportunity to headmen whose appointments are recommended for future reduction of making any representations they may desire in the matter. Reductions sanctioned prospectively on such schemes by the Financial Commissioner may be carried out when the time comes by the Deputy Commissioner without any further reference to higher authority. If, however, a Deputy Commissioner considers, when the vacancy occurs, that a reduction thus sanctioned should for any reason not be carried into effect, he shall report the case through the Commissioner for the Financial Commissioner's orders. A similar scheme may at any time, for sufficient reason, be prepared by the Deputy Commissioner of a district not under settlement with the Financial Commissioner's previous approval.

CHIEF COURT.

BOOK CIRCULAR No. II—1783 G.

To

ALL DIVISIONAL JUDGES IN THE PUNJAB.

Dated Lahore, the 11th April 1894.

Subject.

Establishments of Divisional and Sessions Courts.

THE scale of establishments allowed to Divisional and Sessions Courts under the orders of Government issued in 1885 and the existing scale for each Court are given in the annexed Table A.

A revised scale, as shown in the annexed Table B, was submitted for the approval of Government in the Court's letter No. 3495 G., dated 4th September 1893, to which sanction has now been conveyed in Punjab Government letter (Home-Judicial) No. 153, dated the 3rd February 1894.

Separate sheets showing the establishment allowed to each Court and the manner in which changes are to be carried into effect are appended.

2. The chief change made is the reduction of the salary of Clerks of Court from Rs. 150 to Rs. 135 per mensem, and the equalisation of the salaries of the Readers of all thirteen Divisional Courts, who will now draw Rs. 100 each per mensem, instead of Rs. 75 in each of six and Rs. 100 in each of seven Courts. The minor changes made consist of the raising of the salaries of the daftri, usher, orderlies and process-servers by one rupee in each case.

3. Intimation was given to Divisional and Sessions Judges in January 1893 that persons thereafter appointed to Clerkships of Divisional Courts would fall under the reduced rate of pay which was then proposed, from the date on which the sanction of Government to the revised scale was accorded. The Clerks of Court in the Delhi, Ráwalpindi and Jhelum Divisions who have been appointed since January 1893 will accordingly draw Rs. 135 per mensem from the 3rd February 1894. Any person hereafter appointed to officiate as Clerk of Court in a Divisional Court in which the permanent incumbent still continues to draw Rs. 150 a month, will draw acting allowances on Rs. 135 only.

4. Under the revised scale now sanctioned the ordinary establishment of each Divisional Court will cost Rs. 524 per mensem. The Courts in which additional establishments have been sanctioned, to meet special requirements, are—

		Per mensem. Rs.

5. Attention is drawn to the directions contained in the column of remarks in the statement relating to each Court. These directions explain how the revised scale is to be introduced in each case. In the Delhi, Jhelum and Ráwalpindi Divisions, where the present Clerks of Court come under the new scale, the remaining changes shown in the column of "Revised Scale" will be introduced at once. In the remaining Divisions the revised scale for process-serving establishments may be introduced at once; and that for ordinary establishment when a Clerk of Court on Rs. 135 has been appointed, except in the case of the Amritsar and Deraját Divisions. In regard to the Amritsar Division, the pay of the Reader may be increased to Rs. 100 at once, as only six Readers are now drawing Rs 100 a month instead of the sanctioned number of seven; the pay of the orderlies may be increased to the new scale when a Clerk of Court on Rs. 135 is appointed, and the pay of the Translator, Muharrir and Daftri must be reduced to the new scale as the present incumbents are replaced by others In the Deraját Division the Reader on Rs. 125 has now retired, and his successor, who now draws Rs. 75, may at once draw Rs. 100, as a saving of Rs. 25 has been already effected; the other changes will be introduced when a Clerk of Court is appointed on Rs. 135.

The special establishments allowed to the Amritsar, Deraját and Pesháwar Courts are not affected by the present orders; but no section copying charges are to be incurred in these Courts without the previous sanction of the Chief Court.

By order, &c.,

A. E. MARTINEAU,

Offg. Registrar.

NOTIFICATION.

The 14th April 1894.

No. 1786 *G.—Leave.*—The Judges of the Chief Court are pleased to grant Mr. F. L. Bailey, Deputy Registrar, Chief Court, Punjab, leave on medical certificate for one year, under Article 369 of the Civil Service Regulations, with effect from 21st April 1894, or such date as he may avail himself of it.

By order, &c.,

FINANCIAL COMMISSIONER'S OFFICE.

Addenda and Corrigenda to Punjab Revenue Circulars.

The 19th March 1894.

No. 452.

Circular No. 28, page 139, paragraph 30.

For paragraph 30 substitute the following :—

30. Attention is invited to the recent addition made to clause (*b*) of Rule 52 under the Land Revenue Act, which provides that in cases of inheritance not more than one fee shall be charged on the acquisition in one and the same village of a right or interest in one and the same capacity, although entries may have been made in more than one proprietary holding. For the purposes of this rule the mauza and not the *tika* in the Kángra District should be regarded as the "village."

The following rulings of the Financial Commissioner on the subject of the levy of mutation fees are published for general information :—

(1) Separate mutation fees are leviable in respect of each holding created by partition proceedings and not one fee only for the whole. In the case, however, of the annual recurring partition of Shámilát land affected by river action among the several share-holders only one fee should be levied in respect of the entire holding, and when the converse case occurs and diluviated land held in severalty is on recovery treated as *Shámilát*, only one fee of course is leviable.

(2) No mutation fee can be levied from any Department of Government for land acquired in the interests of Government. As a corollary to this ruling no fee is leviable on the resumption of revenue-free assignments, the mutation in such cases being in favour of Government. Fees should, however, be levied on grants of or successions to revenue assignments. Local Bodies are not exempted from the payment of mutation fees, even when the property is acquired under the Land Acquisition Act.

(3) The enhancement of the rent of an occupancy tenant is the acquisition of a right or interest necessitating mutation and the payment of a fee by the landlord.

Proxy papers.

1. The Registrar laid on the table a statement of the proxy papers received.

2. The first and second proposals on the agenda paper were—

Middle School Examiners, 1894.

That the list of Head Examiners and Examiners for the Middle School Examination, 1894, as recommended in paragraph 2 of the Proceedings of the Syndicate, dated 10th June 1893, with the subsequent amendments as shown in paragraph 8 of the Syndicate Proceedings of the 3rd November 1893, be approved;

Arts and Oriental Faculty Examiners, 1894.

That the List of Examiners for the Arts and Oriental Faculties and for the Oriental Titles Examinations for 1894, as recommended by the Syndicate in paragraphs 3 (a), 4 and 5 of its Proceedings, dated 10th June 1893, with the subsequent amendments as shown in paragraph 3 of Syndicate Proceedings, dated 4th July, paragraph 3 of 9th December, and paragraph 4 of 16th December 1893, be sanctioned.

These were read out by the Vice-Chancellor and passed without discussion, (see Appendix I).

Appointment of Middle School Examiner.

The appointment of Mr. Jackson as Examiner in Arithmetic for the Middle School Examination in place of Lála Shiv Dayál, M. A., was confirmed on the understanding that he is competent to look over the answer papers in vernacular without assistance.

3. The next proposal was—

Law Lecturer's leave and allowance.

That the following resolution of the Law Faculty, as approved by the Syndicate on the 10th June 1893, be confirmed :—

That the Law Lecturer be granted leave of absence between the 14th May and 14th November 1893 with permission to draw his full pay during the recess of the Law School, and that temporary arrangements for carrying on the teaching duties and current work of the Law Lecturer, as recommended in the Proceedings of Law Faculty, dated 23rd May, with the modification contained in its Proceedings of 6th June 1893, be approved.

This was passed without discussion.

4. The fourth proposal was—

Rules regarding the re-examination of answer papers.

That the Rules regarding the re-examination of answer papers at the University and Middle School Examinations, as approved by the Syndicate, be accepted, and the Syndicate be authorized to affix the Common Seal of the University to the same, (see *Appendix II to Syndicate Proceedings, dated 10th June* 1893.)

In putting this forward the Registrar brought to the notice of the Senate that, in anticipation of the sanction of these rules, he had had the answer paper of a law candidate, who had failed in a single paper by one mark only, but had done very well in all the other papers, re-examined. The action of the Registrar was approved, and the rules regarding the re-examination were passed with this modification that packets of 300 instead of 100 answer papers should be sent to the Head Examiner by the subordinate examiners, (*see* Appendix II.)

5. The fifth proposal was—

Intermediate Philosophy Course.

That the Chapter on the Import of Propositions in Ray's Deductive Logic be retained in the Philosophy Course for the Intermediate Examination,— (see *paragraph* 9 *of the Syndicate Proceedings, dated* 10*th June* 1893.)

An oral examination in English Reading and Physical Science shall be held at every centre of examination. English, shall be the medium of examination in all subjects; that is to say, the questions set by the examiners shall be set in English, and the answers written by the candidates shall be written in English, except in the case of translation, which shall be from and into the Vernacular of the candidate.*"

This was, after some discussion, accepted.

14. The fourteenth proposal was—

Amendment of B. A. Regulations.

That the Report of the Sub-Committee appointed to consider the Resolution of the Senate regarding the amendment of paragraph 7 *of the Regulations for the B. A. Examination, as approved by the Syndicate, be accepted, and the Syndicate be authorized to affix the Common Seal of the University to the same.* (See *Appendix II to the Syndicate Proceedings, dated* 16*th December* 1893.)

Addition of proviso to the M. S. Examination Regulations.

That the following Resolution of the Syndicate be approved:—

"*That Students who have already passed the Middle School Examination without having taken up or passed in certain optional subjects may appear at any subsequent examination in one or more such optional subjects only on payment of the usual fee.*"

19. It was resolved—

That the Degrees specified in Appendix X be conferred upon the candidates named therein, who are duly certified to have passed the Examination and fulfilled the other conditions necessary for the several Degrees referred to, in accordance with the Statutes, Rules and Regulations now in force, and with the provision of Section 14 *of the Panjab University Act, the list to include the names of the successful candidates of the LL. B. Examination of* 1893.

That a foot-note be added to the proviso in paragraph 3 *of the Regulations for the Entrance and Middle School Examinations to the effect that the words "not a fit person," etc., cover such misconduct as any distinct breach of school discipline,—as, for instance (in the case of public school candidates), wilful absence without sufficient reason.* (*See Syndicate Proceedings of the* 9*th December* 1893)

Amendment of Middle School and Entrance Examination Regulations.

25. The last proposal was—

That the definition of a public school in the Regulations for the Entrance Examination be altered to read as follows:—

Entrance Examination Regulations.

A public school shall be held to mean a school (a) in which the course of study conforms with the standard prescribed by the Department of Public Instruction or the University, and which

is inspected by the Department; or (b) which satisfies the University that it is organised and conducted so as to ensure sufficient training up to the standard of the Entrance Examination.—(See *Syndicate Proceedings of 9th December* 1893.)

and that the Syndicate be authorized to affix the Common Seal of the University to the same.

This was, after a good deal of discussion, in which the Vice-Chancellor, Doctors Sime and Ewing, Mr. Channing and other members took part, finally carried, with the following addition, proposed by Rev. Dr. Ewing and seconded by Doctor Sime :—

That the Syndicate be requested to formulate a scheme by which the University may satisfy itself that the conditions specified in part (b) *of the above resolution are from year to year fulfilled.*

APPENDIX II.

Rules relating to the Re-examination of Answer Papers.

1. In every examination as soon as the results have been tabulated, the Registrar shall prepare a list of the candidates who have failed by not more than *five* marks in one subject only, and in order to guard against any undue hardship or inaccuracy in the system of marking adopted, their papers in that subject shall be re-examined by the original examiners, or, in the case of the Middle School Examination, by the Head Examiners, who will make such recommendations with respect to the marks allotted as they may think proper. Provided that this re-examination shall be required in compulsory subjects only.

The Examiner shall be paid for the papers re-examined at the usual rates.

2. Before publication of the results of the Middle School, Entrance, Intermediate and B. A. Examinations, they shall be submitted to the Board of Studies with a statement of the percentage of passes in each subject, when the Board may order the re-examination of any set of papers by the original Examiners.

3. In the Middle School Examination whenever there is more than one Examiner, in any paper of a compulsory subject another Examiner, to be called the Head Examiner shall be appointed. The Head Examiner shall set the question papers and shall re-examine not less than 5 per cent. of the answer papers looked over by each of the examiners in his subject, with a view to see whether a uniform standard has been adopted. Where there appears to be a want of uniformity, he shall at once return the papers to the Examiner whose papers need revision, along with at least 5 papers examined and marked by himself, and with such instructions or suggestions as he deems necessary.

The papers shall be sent in the first instance to the Head Examiner in packets of 300.

4. In no case under para. 3 shall the Head Examiner himself increase or diminish the marks assigned to any paper by an Examiner.

In case of a difference arising between a Head Examiner and one of the Subordinate Examiners the matter shall be referred for decision to the Board of Studies.

5. The Head Examiner will be paid at the rate of Rs. 100 for each of the following subjects :—English, Vernacular Languages, Arithmetic and Mensuration, General Knowledge; and at the rate of Rs. 75 for the subject of Euclid and Algebra.

6. The Head Gxaminer shall be responsible that the whole results in his subject are submitted in due time, and shall certify that he has re-examined the required percentage of answer papers.

7. In the existing rules for the conduct of Boards of Studies, Section 33 (*b*) and (*c*), where there is a Head Examiner, by "Examiner" shall be understood "Head Examiner."

APPENDIX III.

Lahore, dated 20th June 1893.

From—LALA RAMJI DAS, Auditor, Panjab University Accounts,
To—DR. M. A. STEIN, Registrar, Panjab University, Lahore.

I HAVE the honor to report that I have audited all the accounts in connection with the Panjab University for the official year 1892-93, *i. e.*, from 1st April 1892 to 31st March 1893. The books and vouchers are all kept neat and complete.

2. It has been noticed that one voucher is accepted for several payments made at different times. This does not seem right. In future separate vouchers should be obtained for each payment.

3. During the year the Funded Accounts have been sub-divided into—

i. Special Endowed Trusts.

ii. General Endowment Funds.

iii. Unendowed Special Subscriptions and Donations.

4. All the accounts, except the Oriental College Account, were previously kept by calendar year. They have now been prepared for the official year, and therefore the statements of accounts (enclosed) have been prepared for 15 months, *i. e.*, 1st January 1892 to 31st March 1893. Certain individual Trust Accounts have been overdrawn as shown in the balance sheet (herewith submitted), which is due to receipts on account of interest being for 12 months only and expenditure for 15 months.

CURRENT ACCOUNT.

5. All the expenditure under this account is well within the budget grant except "Registrar's office contingencies," in which there has been an excess of Rs. 573-8-9, which is evidently due to more outlay on stationery and other miscellaneous items owing to greater number of candidates this year and to some examinations having been held twice during the period under report.

6. Under the new Financial Rules the imprest in the hands of the Registrar has been increased from Rs. 100 to Rs. 500.

SPECIAL ENDOWED TRUSTS ACCOUNT.

7. During the year a donation of Rs. 50,400 in Government paper has been received from the Patiála State for founding "Patiála-Albert Victor Scholarships," which has caused excesses over the income on account of interest of Rs. 917-4-0 and over the expenditure of Rs. 621-11-5 under head "Endowed Scholarships."

GENERAL REMARKS.

8. The stock accounts are being properly maintained.

9. The outlay of the year has been properly vouched for.

10. The other accounts call for no special remarks.

The annual income from fees amounts to Rs. 492-9-0, and shows a decrease of Rs. 21-10-0 against the income of the previous year. The fees for the Boarding-houses amount in the aggregate to about Rs. 16 a month.

Remarks of the Oriental College Committee on the Statistical Report for 1892-93.

I.—The receipts of the Oriental College Budget for the year 1892-93 amounted to Rs. 22,322. Against this there is an expenditure of Rs. 21,189 in the year under report; so that there has been a saving of Rs. 1,133 on the whole. This saving resulted chiefly from restricted expenditure under the heads of Stipends and Miscellaneous Expenses. To the saving on the Budget (Rs. 1,133) must be added receipts on account of fees (Rs. 493), making a total saving of Rs. 1,626.

II.—The total expenditure against the Oriental College Budget was Rs. 21,189 against Rs. 20,938 in the previous year. Towards this expenditure Rs. 3,200 were contributed by the Special Government Grant which has been sanctioned by the Local Government to meet the actual expenses connected with the tuition of Government College Classes in Oriental languages.

The total expenditure against the University Budget was Rs. 10,634 (including Rs. 2,234 on account of Assistant Professors transferred from the Government College and Substitutes, and Rs. 4,982 on account of Endowed Readers), and Rs. 956 were spent on account of Government Scholarships held by students of the College.

III.—The number of students on the roll on the 31st March 1893 was 72 in the College and 50 in the School Department. The number of students in the College Department was the same as that shown for the corresponding date of the previous year, while the figure for the School Department shows a slight decrease against that for the 31st March 1892, which was 56.

IV.—The scholars on the rolls on the 31st March 1893 were divided according to creed as follows :—

	Hindu.	*Muhammadan.*	*Sikh.*	*Total.*
College Department	... 21	40	11	72
School do.	... 24	21	5	50
Total	... 45	61	16	122

V.—The following was the number of scholarship-holders (Government and University) and stipendiaries on the 31st March 1893 :—

	Scholarship-holders.	*Stipendiaries.*	*Without Scholarship or Stipend.*	*Total.*
College Department ...	34	25	13	72
School do. ...	5	11	34	50
Total ...	39	36	47	122

The number of stipendiaries remained the same as on the close of the previous school year (36), while the number of scholarship-holders was reduced by one.

VI.—In addition to students actually belonging to the Oriental College, 114 students of the Government College, Lahore, who were reading for Arts Examinations, received in the year under review instruction in Oriental Languages in the Oriental College, seven teachers (among them the Principal) being either permanently or for part of their time engaged in the tuition of these classes.

VII.—The Scheme of Studies shown on pages 13—17 of the Report contains detailed information regarding the courses of lectures given to the several classes of the College and School Departments. These courses of instruction were based upon the courses of reading prescribed for the various Oriental Language and Degree Examinations of the Panjab University, and their arrangement shows that the tuition of the Arts and Oriental Titles Classes, both in the College and School, has been carried on in strict conformity with the principles laid down by the Sub-Committee appointed for the re-organization of the College.

The report further contains (pages 16, 17) a detailed account of the tuition in English which had been organized under the recommendations of the same Sub-Committee for students reading in Oriental Titles Classes. The progress made in this branch of instruction was tested by the Special Examination in the English Language newly instituted under the Revised Regulations of 1892, with the result that seven out of the eight students who had received the requisite amount of tuition and were thus prepared to present themselves at the Examination, passed successfully and qualified for Diplomas of Oriental

Titles. It is hoped that these students will find opportunities as teachers of Schools or Colleges to utilize their training in giving instruction in Classical languages through the medium of English and in accordance with modern methods.

VIII.—It will be noticed from the statements given on page 9 of the Report that candidates from the Oriental College appeared in not less than 17 different examinations of the University for 1893. The results gained by the Oriental College in these various examinations show the satisfactory average of 66·1 per cent of passes from among the candidates sent up. From a comparison of these results with the general pass percentages of candidates in the several Oriental Faculty Examinations (*see* page 10) it will be found that the pass percentages gained by the Oriental College were in eleven examinations considerably higher than those shown for the total of the candidates, and in two other examinations equal to the latter. In not less than seven examinations,—*viz*., M. O. L. (Arabic), Intermediate (O. F.), Shastri, Maulvi, Munshi Fazil, Budhiman, Vidván,—the results show for the Oriental College fully 100 per cent. of passes.

The results of the year have also been favourable with regard to the success gained by individual students of the Oriental College in these examinations. The only successful candidate in the M. O. L. Examination (in Arabic) came from the Oriental College, and in not less than nine examinations students from the Oriental College took the first place on the list of passed candidates. Both in the B. O. L. and Intermediate Examinations of the Oriental Faculty the two highest places in order of merit were gained by students of the Oriental College, all being placed in the 2nd Division.

The following list shows the examinations in which Oriental College students stood first in order of merit :—

B. O. L.	Examination
Intermediate	"
Prajna	"
Visharada	"
Maulvi	"
Maulvi Alim	"
Munshi Alim	"
Vidván	"
Budhiman	"

Ten Government and University Scholarships, one Gold Medal and one Prize were gained by students of the Oriental College on the results of the above examinations.

With regard to the results of the tuition received in the Oriental College by students of the Government College, it deserves to be noted that, as shown on page 12 of the Report. not less than 87·2 per cent. of all Government College students who had appeared at the Intermediate and B. A. Examinations of 1893 passed with success in the Oriental Classical Languages in which they had received instruction in the Oriental College.

On results of the B. A. Examination in Sanskrit the Aitchison-Ram Rattan Sanskrit Scholarship was awarded to one of these students of the Government College (Pandit Lakshman Das), who stood highest in the subject and who subsequently received the further distinction of being appointed by the Syndicate to the McLeod-Kashmir Sanskrit Readership. A student taught in the Oriental College stood also highest in Persian at the Intermediate Examination in Arts.

IX.—The system of House Examinations as introduced in 1888 has been continued during the year under report, and the rules by which the award and tenure of stipends is made dependent on the results obtained in these House Examinations have been strictly adhered to.

X.—During the year under report, the following changes in the teaching staff of the Oriental College have taken place.

On the death of Pandit Sukh Dayal, 2nd Pandit, College Department, which occurred at the beginning of the school year and was already noticed by the Committee in its remarks on the previous Annual Report, the Committee recommended the promotion of Pandit Durgadatta, 1st Pandit, School Department, to the vacant post. This proposal received subsequently the sanction of the Senate of the University, the officiating arrangements which had been in force during the late Pandit Sukh Dayal's protracted illness, being continued in the meantime.

The post of the 2nd Pandit, School Department, which had become vacant by the death of Pandit Maya Ram towards the close of the school year 1891-92 was first filled up by the appointment of Pandit Hari Krishna, Shastri, formerly teacher of the Randhir College, Kapurthala, who joined this post on the 1st May 1893. Pandit Hari Krishna was subsequently promoted to the post of 1st Pandit, School Department, on Pandit Durgadatta's transfer to the College Department. In his place Pandit Ganga Vishnu, Shastri, a former student of the College, who had been working since December 1891 as Officiating Sanskrit Teacher to the satisfaction of the Principal, was appointed 2nd Pandit, School Department.

Pandit Bhagván Dás, Assistant Professor of Sanskrit, whose services had been transferred in 1884 to the Oriental College from the Government College, died at the close of the summer vacation. The Committee, keeping in view the previously expressed intentions of the Syndicate and Senate, resolved not to fill up the post vacated by the Pandit's death, but to recommend the nomination under the Revised Rules of a duly qualified McLeod-Kashmir Reader as a teacher of Sanskrit for the Government College Classes. This proposal received the approval of the Senate, and Pandit Lakshman Dás, who had received his Sanskrit training in the Oriental College and had distinguished himself in the B. A. Examination of 1893 by standing first in Sanskrit, was accordingly nominated to the Readership after the close of the year under report.

Pending this nomination the work of the late Assistant Professor was carried on by Pandits Durga Datta and Hari Krishna, Pandit Syama Dás, Shastri, a former student of the Oriental College, who had distinguished himself in the Shastri Examination of 1891, helping in the tuition of the Oriental Titles Classes as a temporary Assistant Teacher of Sanskrit.

Pandit Ráma Krishna, B. O. L., 1st Teacher, Hindi School Department, died during the summer vacation after having served on the staff of the College for over ten years. In view of the limited attendance of Hindi-reading students, it was decided to leave his post unfilled for the present.

Bhai Gurmukh Singh, who had passed with credit the High Proficiency Examination in Gurmukhi of 1890 from the Oriental College, was nominated in November 1892 to the post of Gurmukhi Teacher, School Department, vacated by Bhai Chanda Singh's retirement.

L. Chandar Bhán, M.A., Patiála Translator, was granted one and a half month's sick leave in the early part of the school year; his work as Mathematical Teacher of the College Classes was during this time entrusted to M. Ghulam Mustafa, M.O.L., and the late Pandit Ráma Krishna, B.O.L., in addition to their other duties.

M. Muhammad Sharíf succeeded in June 1892 on the results of that year's Maulvi Fázil Examination to the Baháwalpur Arabic Readership and was, in accordance with the arrangement followed in previous years, employed as teacher of Arabic and Persian in the School Department.

XI.—The Committee in conclusion desires to record its appreciation of the labor of the Teaching Staff of the Oriental College, to whose energetic supervision and careful tuition the successful results attained at the various examinations are mainly due.

During the school year 1892-93 the tuition in English, which had been introduced since 1888 into the classes reading for Oriental Titles, has been maintained on the lines indicated by the recommendations of the Sub-Committee which had been appointed to consider the re-organization of the Oriental College.

The classes organized for tuition in English during 1892-93 have been as follows:—

I. A HIGH SCHOOL CLASS: opened for students who having begun the study of English without previous instruction when English tuition was introduced into the Oriental College in 1888, or having received an equivalent amount of tuition in English before joining the Oriental College, had by the end of the previous school year reached the standard prescribed for the Middle School Examination.

Five students reading in the Oriental Titles Classes applied for and received dispensation from attendance at the hours of English instruction; among these 3 were blind.

On the other hand 8 *casual students* attended the Classes formed for instruction in English besides the students shown above. Three among these had previously received English tuition in the Oriental College but had left the institution on passing the highest Oriental Title Examination of their department.

The teaching of the High School Class and the two Middle Classes was entrusted during the year under report to Teacher L. Shugan Chand, holding an Anglo-Vernacular Senior Teacher's Certificate of the Second Grade. L. Shugan Chand also superintended the tuition of the Primary Classes, which was conducted by the Assistant English Teacher, Mul Singh, holding an Anglo-Vernacular Junior Certificate.

Eight students who had attended the Higher Middle Class during 1892-93 appeared in April 1893 at the Special Examination in the English Language instituted under the Revised Regulations of 1892 for Oriental Language Examination candidates desirous of obtaining Diplomas of Oriental Titles. *All but one* of these candidates passed successfully

the prescribed test, and thus became entitled to the Diplomas corresponding to the Oriental Language Examinations which they had passed either in previous years or in 1893. The names of the successful students together with the Diplomas earned by them on passing the Examination in English, are as follows:—

Muhammad Baqir	..	Maulvi Fazil Diploma.

Two more students of the Higher Middle Class had appeared as private candidates at the Anglo-Vernacular Middle School Examination of 1893, having prepared themselves privately in subjects other than English. Both these students succeeded in passing the Middle School Examination and were, therefore, promoted to the High School Class without having been required to present themselves for the Special Examination in English.

Oriental College Library.

The Library of the Oriental College has been considerably enlarged during the year under report by the addition of new books for which a total expenditure of Rs. 499-13-4 was incurred. The object kept in view with regard to purchases was, as in previous years, to furnish the Library with critical editions of Texts in Oriental Classical Languages and with such modern works dealing with the several departments of Oriental Studies as would help the teachers and students to acquaint themselves with the results obtained by Western philological and historical research and to acquire a practical knowledge of its methods.

The most valuable acquisition of the Library during the year was a complete copy of the Professor Max Müller's Revised Edition of Sayana's *Rigvedabhashya*, which, though much needed for teaching purposes, it had been found impossible to obtain for the College in the first edition. Some other notable additions were Beames' *Comparative Grammar of the Aryan Languages*; Schroeder's Edition of the *Maitrayaniya Samhita*; several volumes of the Clarendon Press' "*Sacred Books of the East*;" Raverty's *Tabakat-i-Nasiri*; Editions of Arabic Diwans and Philosophical texts from European and Egyptian Presses, etc. Of periodicals dealing with subjects of Oriental Philology, the Library received the "*Indian Antiquary*," the "*Vienna Oriental Journal*" and the "*Epigraphia Indica*." To the liberality of the Asiatic Society of Bengal the Library was indebted for a set of the latest publications of Sanskrit, Arabic and Persian texts in the Society's "Bibliotheca Indica."

The total number of works added during the year under report amounted to 91 works in 118 volumes, of which 41 works reached the Library as presents from the Asiatic Society of Bengal, the Director of Public Instruction and private donors.

APPENDIX VI.

Khán Bahádur Faqír Saiyid Jamál-ud-din's Prize (Medal).

FAQIR SAIYID JAMAL-UD-DIN in a letter, dated 22nd April 1891, to the address of the Registrar, offered Rs. 1,000 for the endowment of a medal or prize to the candidate who excels in English and Arabic.

At a Meeting of the Senate, held on the 27th June 1892, this offer was accepted with thanks.

The prize (medal) will be awarded in accordance with the following Rules:—

1. A prize to be entitled "The Khán Bahádur Faqír Saiyid Jamal ud-dín's prize" consisting of books relating to Arabic Literature or the History of Muhammadanism [to be selected by] of the value of the annual interest accruing on the 4 per cent Government Promissory Note in which the endowment has been invested, shall be awarded every year at the Convocation to the candidate who stands highest among the successful candidates for the M. A. Examination of that year taking up Arabic as their subject.

2. In case there be no such candidate in the M. A. Examination of the year, the prize will be given to the candidate who, while passing the B. A. Examination of that year, obtains the highest number of marks in Arabic.

3. Provided that in case there be no such B. A. candidate the prize will be given to the candidate who, while passing highest, taking up Arabic as one of his subjects, the M. O. L. or B. O. L. Examination of that year, also furnishes proof of his possessing a knowledge of the English language equivalent to the standard laid down for the Entrance Examination in Arts.

4. Should the donor augment the present endowment so that its increased interest will cover the cost of the preparation of a gold medal, such medal shall be awarded in lieu of a prize under the same conditions.

APPENDIX VII.

Copy of a letter No. 6820 T.A., dated the 2nd August 1893, from the Accountant-General, Panjab, to the Chief Secretary to the Government of the Panjab.

I HAVE the honor to submit my report on the accounts of the Panjab University for the year 1892-93.

2. These accounts have been kept for the first time according to the financial year as suggested by me, and consequently embrace a period of 15 months, *i.e.*, from 1st January 1892 to 31st March 1893.

3. The Account Books are similar to those previously kept, except that the "Funded Accounts" have been sub-divided from 1st January 1892 into (*i*) Special Endowed Trusts, (*ii*) General Endowment Fund, and (*iii*) Unendowed Special Subscriptions and Donations. This arrangement is convenient.

4. I am satisfied that the Government grants have been legitimately expended on the objects for which they were sanctioned. I have also checked the safe custody receipt of the Bank of Bangal for the Government securities deposited with it, with the corresponding amounts in the accounts of the University. These securities stand at the nominal value of Rs. 4,71,900 ; Rs. 2,82,300 appertaining to Endowed Special Trust Account, and Rs. 1,89,600 to the General Endowment Fund. The sum of Rs. 2,82,300 includes the Government securities for Rs. 50,400 presented during the year under report by His Highness the Maháràja of Patiála in commemoration of the visit to the Patiála State of His Royal Highness the late Prince Albert Victor of Wales.

5. The Account Books have been signed by the Chairman and Members of the Board of Accounts as required by the rules.

6. A "Register of Stock in trade of the University" is maintained in which are exhibited books for sale and academical costumes, and a numerical list of the furniture. A list of books of the University Library has been prepared, but not yet printed.

7. Some of the Endowment Accounts were temporarily overdrawn by sums ranging from Rs. 314-5-6 to Rs. 6-5-4, respectively, owing to the charges payable from them having been made before the interest on the Endowment was due.

8. There have been two excesses in the "Current Account" over Budget grants, namely, (1) under Registrar's Office Establishment, Rs. 3-12-0 and (2) under Registrar's Office

Contingencies, Rs. 573-8-9, or a total of Rs. 577-4-9. These excesses are attributed to the purchase of stationery and other incidental petty charges connected with examinations, at which a larger number of candidates appeared than was expected, and also to charges in some instances having been incurred for two examinations, instead of one only in consequence of the accounts being for 15 months as noted above.

9. The financial condition of the University at the close of the year 1892-93 was sound, and the Account Books were neatly and satisfactorily kept.

No. 848.

Dated Lahore, the 12th of August 1893.

4.—A Branch of Physical Science.

5.—A Second Classical Language or Persian.

B. COURSE—

Fixed Subjects—

1.—English.

2.—A Course of Mathematics or a branch of Physical Science.

Elective Subjects—

One and only *one* of the following must be taken :—

1.—Mathematics—

A Course of Mathematics, *or*

A Second Course of Mathematics in the case of candidates who have taken a Course of Mathematics as a *Fixed* Subject.

A Second Branch of Physical Science in the case of candidates who have taken a branch of Physical Science as a *Fixed* Subject.

3.—Philosophy.

4.—History and Political Economy.

The Sub-Committee also recommend that instead of "First Course" the words "*Applied* Mathematics," and instead of "Further Course" the words "*Pure* Mathematics," be adopted both in the Regulations and in the form of application for admission to the Examination.

T. C. LEWIS,

Bábu C. N. Mittra, *Assistant Registrar.*

His Honor the Chancellor (the Hon'ble Sir Dennis Fitzpatrick, B. A., Bar.-at-Law, K.C.S.I., C.S.) of the University arrived at 12 noon and was received at the south entrance of the Government College Hall by the Vice-Chancellor and Fellows of the University, and conducted to a raised platform in the Hall, the Vice-Chancellor occupying a seat on his left hand and His Highness the Nawáb of Baháwalpur with his suit on his right. The Fellows were seated on the right and left of the Chancellor. Amongst the visitors were Sir James Lyall, the Hon'ble Mr. Wilson and other members of the Opium Commission. The undergraduates of the University occupied the gallaries of the Hall.

At the request of the Vice-Chancellor, His Honor declared the Convocation open, after which a summary of the Annual Report on the University was read.

The Vice-Chancellor then addressed the assembly in these words:

"May it please Your Honor, Gentlemen of the Senate, Graduates and Under-Graduates of the Panjab University: It affords me great pleasure to meet you all once again in this spacious Hall, where, thanks to the courtesy of the Principal of the Government College, we have so often held our Convocations. I had hoped that on this occasion our much respected Chancellor would have been able to have delivered the Convocation address himself from which I am sure we should all have derived both profit and pleasure. But the many other important matters, which claimed his attention, made it impossible for him to comply with my request that he should do so, although he has kindly consented to preside at this meeting, and to speak some words to us at the conclusion of our proceedings.

"The Report, gentlemen, which has been handed round to you, and an abstract of which has just been read, is, I am happy to find, a report of continued progress and success; of progress in prosperity and of success in achievements—that kind of progress which marks that the Panjab is keeping pace with the older Provinces in matters of education, and that kind of success which proves that her sons are keenly alive to the necessity of acquiring such knowledge as will place them on an equality with educated youths in other parts of the Indian Empire. Nor was anything less to be expected from the sons of a brave and manly population. In all those qualities that mark the genius of a warlike nation—courage, devotion, and enterprise—the people of the Panjab can at least boast that their forefathers possessed them in an eminent degree, and it is a truth which all investigation confirms that the sword always stands behind the sceptre of Empire. In the past, here in the Panjab as in the other parts of India and in Europe, the children of conquering races have been also, by comparison, as the Duke of Argyll says, 'the children of light, of culture, and of wealth.' It was the military strength of these races, the strong arm to win and to hold, and the intellectual capacity to organise, which gave them the pre-eminence and leadership over weaker races in point of character and conduct. And it is in the consciousness of this superiority of will, of pride in an ancestry that knew how to fight and to conquer, and in the recollection of the glorious deeds of the Khálsa under the inspiring influence of that mystic baptism of the spirit and the sword proclaimed by the Tenth Guru, that our best hopes lie that the children of the soil of this fair Province may yet confirm the teachings of the history of other warlike nations and prove themselves also to be the 'children of light, of culture, and of wealth.' Already we have the sons of Sikh sires winning distinctions in Western lands, competing successfully with English students for admission to the Medical service, passing as Barristers, carrying off certificates of honour in the Royal Agricultural College at Cirencester, and graduating in British Universities; and here in our own midst we have an increasing number of Sikh candidates in all our University examinations. One of them (*Lakhmir Singh*) stood highest in the M. A. Examination of 1891, and another (*Lehna Singh*) appears in this year's prize list as standing first in Philosophy in the B. A. Examination. A similar spirit of intellectual activity may be said to have roused the Pathans and other Muhammadan tribes from their former lethargy. They, too, have lived to see that the superiority, which was in older times

yielded to the sword and to military leadership, must now be primarily sought, under the benign influence of a *pax Britannica*, in other fields of competition; and they, too, are training their sons to fit them to battle successfully in the intellectual contests that lie before them, not only in a struggle for existence, but in order to keep abreast of the current which is irresistibly impelling them into the vortex of a billowy ocean of rival competitors, from which only the fittest and the ablest can hope to emerge with the trophies of success. The welcome presence here to-day of the leading Muhammadan Prince in Northern India, one of our princely donors, may also be taken as an additional evidence of the reality of this feeling. Everywhere, and amongst all classes, there are signs of this intellectual activity growing rapidly, and the desire to provide a cheap education, which would, at the same time, produce good remunerative results, finds practical expression in the foundation of such institutions as the *Islamiya*, the *Daya Nand Vedic*, and, the most recent of all others, the Khalsa Collegiate schools. All these are, at present, healthy signs of a spirit that cannot be checked. They show that the people of this land are alive to the importance of educating their children, and that they have also realised the impossibility of expecting Government alone to provide them with the means of doing so. In older Provinces, like that of Bengal, it is true, a more serious problem has already presented itself, as it is bound to present itself in all countries where education has reached the masses to any considerable extent. That problem is—What is to be the outcome of this cry for higher education? What are the prospects that are open to those who graduate in our colleges by hundreds every year? It is impossible. we hear it said, and truthfully said, to expect that the Government services can offer adequate employment to all who lock to them for their future means of support, and what it is asked, is the outlook for educated youths, *outside* these services? It must be confessed that the outlook is, by no means, a very cheerful one, and the right solution of the difficult questions, involved in the problem I have mentioned, is already causing grave anxiety elsewhere, which we in the Panjab, shall also have cause to feel sooner or later, if we do not, in the meantime, learn wisdom by experience. In the Bengal and Bombay Presidencies, for instance, the spread of higher education has every year quickened its pace. From a trot it has broken into a canter, and the canter in turn has grown into a headlong break-neck gallop which threatens to end in what may best be described in the words of the great economist, Fourier, as a *crise plethorique*, a crisis from plethora. At present, happily, we may not be within measurable distance of this crisis, but the growing extension of education ought to make us seriously reflect on the danger of not devising some means by anticipation for harmonising this tendency on the one hand with the practical needs of the people on the other. The socialised character of this tendency, partly only due to an awakening desire for knowledge after a long slumber of ignorance, but more largely arising from a still stronger desire to provide an equipment for the future struggle for existence which awaits the rising generation, requires to be understood and reckoned with. To allow it to outgrow all control while it is as yet a tender plant, is to rear up a hydra which will be a source of disturbance and disruption hereafter. But if we care to understand the social forces that are now at work, to grasp their action and assume their direction, we shall, I think, subject them more and more to our will, so as, at last, to accomplish the true end of all education, which is, as I conceive it, to enable every person to acquire for himself an honest maintenance. That is the *practical* object of education from the point of view of the economist, and that is the object which we, who desire to regulate and guide education, should primarily set before us to attain. What would be gained, for instance, by filling the mind of every boy who comes to us with all the philosophies of ancient and modern times if, in order to gain his livelihood hereafter, he was obliged, as many an Oxford and Cambridge man, distinguished in the Honor Schools, has been in our Colonies, to break stones as a day labourer on the highway? Would he not be justified in casting the reproach at those who were responsible for his education, that, instead of putting him in the way of earning an honest maintenance suitable to his position in life, they had reduced him to the position of a hungry and useless and (in all probability, only a) third or fourth rate philosopher! His cry would then be for bread, but as 'Philosophy will bake no bread,' as Novalis says, his appetite would have to feed on the Symposium of Plato and the Ethics of Aristotle, or on those of the Mimansa or Vedanta schools: intellectual food, no doubt, of considerable value, but hardly nourishing enough to supply a famishing body with the needful sustenance to keep it and soul together. I need hardly say that I do not mean by these remarks to decry the study of what are called the Humanities—very far from it. Those who have the gilded leisure to pursue these studies, those who have not to go out at an early age to earn their livelihood, and to whom the acquisition of branches of knowledge of common practical utility is not of primary importance, will indeed derive both profit and pleasure from a liberal culture which would embrace such studies. Of them it may be said, if I may for the moment employ the language of Oriental metaphor, 'they to gather roses in the garden of knowledge come.' But these roses do not bloom for all students alike. Their fragrance may indeed be captivating to all of us, and their culture, it may be admitted, must tend to elevate the mind and soften the asperities of

one's nature. For it is impossible to cultivate the liberal arts and sciences without experiencing their influence upon our daily lives. You remember what a great Persian poet (Firdousi) has said :—

'Pass near the merchant's fragrant wares,

Thy robe the scent of amber bears ;

Go where the smith his trade pursues,

Thy mantle's folds have dusky hues.'

And so it is with the higher branches of knowledge. You cannot know anything of them without at the same time being largely benefited by the knowledge. It is right, therefore, that a University, as the patroness of all true knowledge, should afford every facility for and encouragement to the higher enlightenment of the mind. But this is not the only mission of such an Institution. To fulfil her true purpose, a University must extend her maternal care over every department of knowledge, and, as her very name imports, she must be a universal provider of mental aliment suitable to all tastes. Nor, while promoting learning for learning's sake, and honoring the scholar for the sake of his scholarship, must she neglect to pay due attention to the principle of utility. the principle which lies at the foundation of all institutions and is the only basis of permanency which is recognised at the present day. This in our own humble way has been the line of policy we have attempted to follow in our own University. We have endeavoured to promote every form of learning, Oriental as well as European, and at the same time by the device of giving purily Oriental titles or diplomas, and by opening out special examination tests for Clerical and Commercial candidates, we have already gone a long way in the direction of practical utility. Thus, on the one hand, those who desire to obtain the recognition by the University of their literary or scientific attainments, have ample opportunities afforded them of gratifying their just aspirations, coupled with substantial rewards for distinguished merit. Those, again, who wish to obtain the imprimatur of the University for the title and vocation of Munshi, Maulvi or Shastri, whereby an honorable career is secured by those who may not be acquainted with English, find in our comprehensive regulations the means of acquiring a title which is familiar to people of this country, and which soon procures for the holder respectable employment. That these Oriental titles possess a substantial value is evident from the fact that men from all parts of India compete for them, and it is from our University alone they can obtain them. And following out the same lines of general policy, we have more recently drawn up regulations for Clerical and Commercial examinations, in order to encourage another class of men to fit themselves for a sphere of employment which is more suitable to their position and to their abilities. In this way, then, we have been trying to anticipate the solution of those difficult questions that have already arisen in more advanced Provinces, and by opening out special avenues of usefulness, we have hoped to give education its true development, as a means of procuring for a large section of the community the advantage of becoming peaceful, law-abiding and self-supporting citizens, by encouraging them to acquire such useful branches of knowledge as they may be best able to utilize in the future. We have, in short, tried to bear in mind, and to act upon the forcible words which Professor Froude addressed to the students of St. Andrews. 'We want light,' he said, 'but it must be light which will help us to work and find food and clothes and lodging for ourselves.' At the same time we have fully recognised that whatever coin we issue must have the ring of the true metal, or its value will be *nil*. And here let me remind you that the interests of the students themselves, of the Professors and of the Senate of the University stand really on the same level, if people could only be brought to see it. The student, for instance, seeks to obtain a degree or other diploma from the University as a testimony to his ability. But if that testimony is found in the course of experience to be unreliable, does it not follow that the value of the testimony itself will also rapidly depreciate, until it fails to carry any market-value whatever ? Again, the reputation of the Professors and of the Senate would be imperilled if the students whom the one prepared and sent up for examination, and whom the other body certified were intellectually qualified to possess a degree or diploma, turned out to be unworthy of that distinction. So that the true interests of all concerned demand that our degrees and diplomas should be won by real merit, should have a high intrinsic value of their own, and should be worthy of recognition everywhere like current coin of the realm. Believe me, you who are still students, you who are for ever crying out for a lowering of the standards, and for a re-consideration of examination results, a cheaply won degree will be as valueless and more so in your hands as the depreciated rupee promises to become in the hands of the European. Contrast the just pride of those amongst you who will soon be introdnced to our Chancellor to receive at his hands, in the presence of this large assembly, the degrees and diplomas which they have won in a fair examination, based on a standard which ensures the possession of at least average ability and the attentive

prosecution of one's studies for a period varying from four to six years, with what would be the feelings of all concerned—recipients as well as givers—if the degrees and diplomas of the University were no guarantees of merit, if the standards prescribed were so low that failure to pass them would prove the exception, and if at the end of each academical year we were to go through the solemn farce of presenting you with bits of parchment which, if you had any sense of shame at all, would bring the blood to your cheeks whenever you looked at them, and be more a disgrace than an honor to possess. Be satisfied, therefore, that if the Senate of your University has refused to adopt any but a reasonably difficult standard of qualification, if it has insisted on thoroughness in each subject rather than a superficial smattering of knowledge spread over a wider surface, it has acted with wisdom in your interests, as well as in the interests of the institution for whose welfare and reputation it is responsible.

"And now, gentlemen, let me refer to a subject which is intimately connected with the spread of education, and in regard to which I hope that what I am about to say will meet with your sympathy and support. Looking down the class lists of those who have successfully competed at the last University examinations, there is still the absence of the name of a single female candidate to be noted. It may be that it is yet too early to expect anything else, seeing that female education on any organised basis in this Province is only an effort of very recent years. But I fear the absence of any female competitors at our examinations is partly due also to a certain lukewarmness, if I may so call it, in the cause itself—a lukewarmness which in one sense is perhaps natural, though in another is scarcely in harmony with that desire for the spread of education to which I have referred. It is natural, perhaps, in the sense that to introduce female education on any large scale is an innovation on the settled habits of the great bulk of the native population, and every innovation requires time to overcome the opposition it is sure to meet with at the outset. On the other hand, it is surely not in harmony with a genuine desire for the spread of education that boys alone should benefit from it? If wives and daughters and sisters are not to be mere household drudges, but companions of their educated husbands, fathers and brothers, they must be admitted to share, to some extent, in the spirit of enlightenment of the age. Nor is it possible to conceive that educated men will long continue to be content to see women of their race remain incapable of sharing their enlarged ideas, or of sympathising with their more cultured tastes and sentiments, and of encouraging them in the pursuit of knowledge. I do not forget, moreover, that I am addressing these remarks to a people whose early history, even so far back as Vedic times, contains the record of many a cultured woman whose eloquence and piety have earned an imperishable fame. But while in Europe women have steadily advanced in knowledge, in the East they have gradually sunk deeper and deeper in ignorance. It is to education, therefore, that we must look as to a new sun destined to arise and shed a new light upon those who are now living in the gloom and darkness of ignorance; and it is with your aid, you who have now plucked some of the first fruits of learning and can appreciate what cultured surroundings can do for you, that education can alone hope to make any progress within the domestic circle of your households. The lamp and the wick need but to be trimmed and supplied with oil to dispel the thickest darkness, and who knows how many a gifted Visvavâra, whose sacred muse has survived to us from the Vedic age through thousands of years, may not now be sighing behind the dark folds of the Zenana for the opportunity to be heard? I appeal, then, to you who have learnt to value the benefits of education, and who may, therefore, be reasonably expected to have outgrown, to some extent at least, the narrow prejudices of illiberal minds, to do what you can in your own homes to keep the lamp of learning alight, and to encourage your wives, your sisters and your daughters to taste of the tree of knowledge. Instead of then being obstacles to those social reforms which so many of you desire, they will be real helpmates to you in your efforts to bring them about; and you will no longer feel, as you must do now, that there can be no interchange of ideas when your thoughts run in such different groves, and when your female relations are still lingering in the superstitions of a bygone age.

"Again, let me impress upon you the importance of technical and industrial education, which the recent opening of the third Panjab Exhibition has only served to emphasize still more prominently. Here you have a field which has a great future before it, and it would be well if many youths who now make very indifferent scholars, would devote the time they waste in trying to learn subjects which they will never understand, and which will never be profitable to them, to the acquisition of some practical branches of knowledge in our technical and industrial schools, which, I trust, will still more largely develope in future years. They would then, at all events, learn something by which they would be certain to earn sufficient for an honest maintenance, instead of going on plodding over books which convey no intelligent meaning to their minds, and in vainly attempting to comprehend the beauties of Milton and Shakespeare which are as far beyond their understanding as the stars are distant from earth. One of your own sages has said that

'Knowledge, like food, is poison to him who cannot digest it.' It is not only useless, therefore, but positively harmful to try to acquire knowledge which you are not mentally capable of digesting. Remember, too, that it is mechanical labour that has largely contributed to make England the wealthy country that she is, and that no country can hope to prosper where mechanical and industrial labour are despised. Do not then disdain, some of you at least, to turn your attention to labour of this kind, and you may rest assured that the development of production of this form of labour will itself create a market for it in accordance with the law which equilibrates the relation between supply and demand. If you wish for a living example to encourage you in such pursuits, let me mention the name of Bhái Rám Singh whose fame as an architect and wood-carver has reached England, and whose skill has been employed by Her Majesty the Queen Empress herself, to adorn and beautify her palace at Osborne. He is another instance of a Sikh who has shown himself worthy of his nation, and that he possesses, in a marked degree, the indomitable resolution and perseverance which are so characteristic of his countrymen.

"And now, gentlemen, I think I have sufficiently dwelt upon those subjects which I deemed it necessary to refer to on an occasion like the present. My object has been to point out the importance of three things, namely, the need of making education practical and useful, of encouraging female education, and of promoting technical and industrial education. It seems to me that it is in these directions that we must seek to exert our influence if we desire that our labours should bear any permanent value, or benefit the people at large. It only remains for me to congratulate those of you who are about to receive the rewards of your diligence on the successful manner in which you have acquitted yourselves. Most of us have had at one period of our lives to pass through the same ordeal as you have, and many in this room have had the gratification of being called up in the presence of their comrades and friends, just as you will be presently, to receive prizes and other suitable recognitions of merit. You may be sure, therefore, that we all take a considerable interest in this great annual function, as is shown by the fact that your Chancellor always presides at it, and by the large number of ladies and gentlemen who come to grace and witness it. But while your present success is undoubtedly a matter of just congratulation, do not let this feeling blind you to the fact that in comparison to what still remains for you to accomplish before you can either reckon yourselves really educated men or useful citizens of a great Empire, you have as yet done very little. At the utmost the gate which leads to knowledge has now been unlocked for you, and you are invited to enter in and complete the studies you have begun. It depends, therefore, upon yourselves whether what you have learned within the College lecture rooms will be of permanent benefit to you or not. Let me recall to you the instructive story of the Bees in the *Anwar-i-Suheli*. You remember how it is related that after completion of the hexagonal chambers of wax under the superintendence of the Queen-mother, the industrious bees go forth to collect honey from the choicest flowers, under the express command that they must not exchange their cleanliness for grossness, nor pollute their purity by evil associations. They are only to sit beside the fair lily or the fragrant rose ; and warders, on their return, examine them to see if they have kept their sacred trust and avoided all impure associations. If they have, they are allowed to enter the immaculate chambers of white wax, but if they have not, they are punished by decapitation. Now, gentlemen, you who are about to receive your degrees and to go out into the world under a solemn pledge that "you will in your daily life and conversation conduct yourselves as becomes members of this University, and that you will to the utmost of your opportunity and ability support and promote the cause of morality and sound learning,' may not inappropriately be likened to the bees, and the University to your Queen-mother, who expects you, under the solemn pledge which each of you has to give as a condition of receiving your degrees, to keep your trust also sacred and to avoid all impure associations. So, again, to continue the simile, as the bees are to collect their honey from only the choicest flowers, so you also are expected to perfect your knowledge only from the purest sources ; and when at last you have 'Warmed both hands before the fire of life' then, like the good industrious bees, you too may hope to receive your higher reward by entering the immaculate chambers of true Wisdom, where learning is honored only as the companion of virtue and goodness. If, however, you are false to your pledged word, you may not indeed have to dread the condign punishment, the bees who betrayed their sacred trust had to expect. But you will have to endure something which to an honest man is as bad, if not worse, than immediate death by decapitation: that is, the loss of character, the loss of that which your very education ought to make you prize as the most precious of all your possessions. Pause then and ask yourselves, each of you, continually this question : 'What ought to be the product of true education, and does my conduct conform to this standard?' The question will admit of an easy answer. Most certainly the product ought not to be a vain boaster, a flatterer, or a noisy pedant: it cannot be a mere veil to hide the nakedness of ill-breeding. But the true product must be refinement in tastes and sentiments, respect for and obedience to legitimate authority, and conideration for one's fellow-beings: to add, if I

may say so, a fresh grace and charm to Nature's gentleman. And so in one of your own books on Wisdom, the *Hitopodesha*, it is said: 'Knowledge produces mildness of speech, mildness of speech a good character, a good character wealth, and wealth, if virtuous actions attend it, produces happiness.' You have here epitamised the workings of true knowledge, exhibiting itself first of all in mildness of speech. Until this first effect is visibly produced in you, be assured that your knowledge is not of the true metal. If it were, there would be no vain boastfulness, no foolish exaltation of oneself as destined to be the instrument to save the Empire from perishing, or to be the future Nestor in the Councils of the Nation, which unhappily is but too often seen now-a-days to be the prevailing self-conceit of youths fresh from the colleges in this country. Try then, my young friends, to avoid this false conceit. You will be more respected for being mild in speech and modest in behaviour, while an opposite course of conduct will only exhibit your own shallowness and bring you into ridicule.

'Still achieving, still pursuing,

Learn to labour, and to wait,'

must be the guiding rule of your future lives, and I will only bid you in conclusion,

'Fail not for sorrow, falter not for sin,

But onward, upward, till the goal ye win.'"

At the close of the Vice-Chancellor's address the Chancellor said it would be necessary for him to say a few words, if only to correct, or at least supplement a statement which Mr. Rattigan had made. Mr. Rattigan spoke of His Honor having devolved upon him the duty of delivering the Convocation address because he was so pressed with work that he could not undertake it himself. He was, as most people knew, very much pressed with work indeed, but His Honor regarded this annual Convocation as a matter of such importance that no amount of work would prevent him from sparing the time which would be required to prepare an address for it. The real reason why his learned friend and not he had addressed them was one which his learned friend could not very well state. It was that His Honor had always considered that an occasion like this was one calling for something in the way of oratory, and His Honor, unfortunately, had not the gift of oratory, while his learned friend had. It was for that reason that he had asked him to give the address—(applause); and now, though he had stood up he was not going to make a speech. There was hardly room for a second speech on an occasion of this kind; and even if there were he should hesitate to attempt to engage the attention of such an assembly after the eloquent and interesting speech of his learned friend. He would say, however, that he was very glad to see by the report that his action in re-appointing Mr. Rattigan as Vice-Chancellor had met with the approval of the governing body of the University, and those interested in its success—(applause). There was no one whom he knew who took a greater interest than Mr. Rattigan in higher education in this country; and he was sure they would all agree with him that they owed a deep debt of gratitude to him for having with such immense demands on his time allowed himself to be re-appointed to the office—(applause). He was glad to see from the report also that a reasonable amount of progress had been made by the University during the last year; and he was particularly glad to observe that a much larger number of Master's degrees had been awarded than was awarded last year. There had been of late years a good deal of discussion in this country—a discussion to which the Vice-Chancellor had referred to some extent in his address—as to whether our Universities were not annually turning out a larger number of young men of very moderate education than the country required, or than it could find places for. He would say nothing about that, but one thing was clear, and that was that our Universities, or at least this University, did not turn out at present as many men of the higher stamp of education as the country could well wish to have—(applause). What he would say was, that if they had too many B. A's (he did not say they had), but if they had—there was no doubt they had not enough M. A's, and the men who took the higher degree were the men that were wanted most. On the whole, they had every reason to congratulate themselves on the sound and flourishing state of this important institution, and he felt that the thanks of the Government and the public were due both to the governing body and the professorial staff for the results exhibited in the report. He desired to take the opportunity of offering to the young men who were to receive their degrees his congratulations and best wishes for their success in life—(applause).

The Registrar then reported to the Chancellor the names of the persons who, having successfully passed the examinations prescribed by the regulations since the last Convocation of the University, had been recommended by the Senate for degrees under Section 14 of the University Act.

SESSION.

Summer Session.—1st May to 31st July.
Vacation.—1st August to 15th October.

Winter Session.—16th October to the 30th April.
Vacation.—One week at Christmas.

COURSES OF STUDY.

The Courses of Studies laid down by the Punjab University for the Intermediate, B. A., and M. A. Examinations are all commenced on 1st May.

ADMISSION TO THE COLLEGE.

1. There is no age restriction imposed upon students wishing to join the College. The only qualifications required from a candidate for admission are that he should have passed the Entrance Examination of the Punjab University or of some other recognized University, and produce a certificate of good moral character.

2. Applications for admission must be made to the Principal as soon as the University results have been published, and no new admission can ordinarily be allowed after the 15th of May. This year the time for admission has been extended.

3. Tuition and admission fees, as laid down in the Code, will be demanded from each student at the time of admission namely, Rs. 8 for students in the Intermediate Classes, Rs. 10 for students in the B. A. Classes, and Rs. 12 for students in the M. A. Classes.

The Principal has the power to admit 10 per cent. of the candidatss on half the usual fees, provided these candidates prove themselves to be deserving young men in poor circumstances. Scholarship-holders are not entitled to admission on half fees.

EXAMINATIONS.

Examinations are of three kinds—Weekly Examinations, Annual Examinations and University Examinations :—

1. Weekly Examinations are held during the summer and winter seasons, and their results entered in the Professors' registers. According to these results, certificates are granted to the students.

2. An annual General Examination is held immediately after the University Examination. By this, chiefly, promotion and continuance of scholarships are regulated.

3. University Intermediate, B. A., and M. A. Examinations take place in the month of March.

COLLEGE SCHOLARSHIPS.

College Scholarships are classed as Intermediate Scholarships or those tenable during the first two years ; B. A. Scholarships or those tenable after passing the Intermediate Examination for two years ; and M. A. Scholarships or those tenable for two years

after passing the B. A. Examination. A limited number of Government, Jubilee, Zamíndári and University Scholarships are awarded to successful candidates in the various examinations who have passed in the First or Second Division.

In addition to these there are annually awarded a Fuller Exhibition, Seth Rám Rattan, Nábha-Jind and Albert-Victor Scholarships for particulars of which see the Punjab University Calendar. Besides these, the Municipalities, Districts and Anjumans have in some cases granted scholarships to students of their districts for higher education.

College Scholarships are held subject to the rules contained in Chapter VII of the Education Code relating to Public Scholarships.

LIBRARY AND READING ROOM.

There is a Library in connection with the College, and books are lent out to the College students under certain rules.

There is also a Students' Reading Room (well supplied with English and Indian periodicals) in connection with the Students' Library and Debating Society. Evening lectures on entertaining subjects are provided under arrangements made by the Principal.

STUDENTS' CLUBS.

Two Debating Societies are maintained by the students, with the assistance of the Staff. These meet every week, and the work consists of Essays, Debates, Readings, Recitations and Dramatic rehearsals. The senior society, called the Union Club, is open to all the students of the College. The junior society, called the Intermediate Students' Club, is chiefly intended for the members of the first and second years' classes. Its object is to give young students additional opportunity for speaking in English, whereby they may acquire greater fluency and accuracy ; the Principal usually presides.

BOARDING HOUSES.

Large new Boarding Houses, with accommodation for Hindús and Muhammadans, have been built in the grounds of the College. They are managed by a Superintendent, under the control of the Principal, whose house is adjacent. Commodious baths, supplied with pure water, have been provided for boarders.

A fee of Re. 1 is levied for boarding accommodation. Medical attendance is provided free of charge.

PHASICAL TRAINING.

A first class Gymnasium has been fitted up in a separate building in addition to the apparatus previously provided. Classes for Drill and Gymnastics are held there under the superintendence of a trained expert.

Ground for cricket, foot-ball and tennis has been laid out, and the materials for these games are supplied.

This provision for varied physical exercise and amusement has had the best effect upon the health of the students, and has tended greatly to promote a cheerful and healthy spirit of comradeship among them.

THE TEACHING OF ENGLISH.

Changes have been effected in the College by which all the English classes are placed in the charge of graduates of British Universities, the greatest care being taken to secure accuracy of pronunciation and idiom. Within the College and its precincts English is required to be the ordinary medium of conversation. The English teaching is in the hands of Professors Bell and Dallinger.

N. B.—Endeavours are made to give every class two hours' tuition in English daily.

COLLEGE CERTIFICATES.

College Certificates of the First, Second and Third Class will be awarded to students who complete the course of study at this College. It is hoped that these certificates will ultimately come to be regarded as of more value in deciding a young man's fitness for any responsible appointment than the mere possession of a degree.

FINANCIAL COMMISSIONER'S OFFICE.

CIRCULAR No. 2.

FINANCIAL COMMISSIONER'S OFFICE,

Dated Lahore, 7th May 1894.

To

ALL COMMISSIONERS, DEPUTY COMMISSIONERS AND SETTLEMENT OFFICERS IN THE PUNJAB.

THE correspondence marginally noted relating to remissions of revenue on account of the damage to crops overshadowed by road-side trees is published for the information and guidance of all Commissioners, Deputy Commissioners and Settlement Officers.

C. M. RIVAZ, Esquire, C. S.

Financial Commissioner's No. 1070, dated 19th October 1882, and enclosures
Punjab Government No. 258, dated 3rd November 1882.
Punjab Government No. 244, dated 19th April 1894.

By order, &c.,

R. SYKES,

(*Translated.*) *Offg. Senior Secretary to Financial Commissioner, Punjab.*

No. 1070, dated 19th October 1882.

From—The Secretary to Financial Commissioner, Punjab,
To—The Junior Secretary to Government, Punjab.

I AM directed to submit in original a letter from the Commissioner of Settlement and Agriculture, No. 272 of 29th September, supporting a proposal of the Settlement Officer of Ludhiána to allow remissions of revenue on cultivated lands adjoining roadsides planted with trees, and to ask that the sanction of Government may be accorded to the proposal. The revenue affected should, Mr. Lyall thinks, be included in the engagement for the revenue and then shown in the records as temporarily and conditionally remitted.

2. Your No. 159 of 5th February 1876 sanctioned similar proposals for the Jhelum District.

No. 272, dated 29th September 1882.

From—Major E. G. WACE, Commissioner of Settlement and Agriculture, Punjab,
To—The Senior Secretary to Financial Commissioner, Punjab.

I HAVE the honor to forward a copy of Settlement Officer Ludhiána's No. 203, dated 21st instant, and to say that I trust the Settlement Officer's proposal for remission of revenue of cultivated lands adjoining roadsides planted with trees in his district will be sanctioned.

No. 203, dated 21st September 1882.

From—T. G. WALKER, Esquire, Settlement Officer, Ludhiána,
To—The Settlement Commissioner, Punjab.

WITH reference to Financial Commissioner's Book Circular No. II S., dated 22nd February 1876, I have the honor to report that I propose, in distributing the assessment of this district, to remit the whole in unirrigated and half the revenue in irrigated lands up to a limit of 47' 6" (the length of half the new chain). The circumstances described in your letter with that circular are found to exist in this district, the injury caused to crops along the principal roads which are lined with trees being very marked. The total amount of remission to be given in this way will be small, and I request the favour of your obtaining sanction for this proposal.

No. 258, dated 3rd November 1882.

From—H. C. FANSHAWE, Esquire, Offg. Junior Secretary to Government, Punjab,
To—The Senior Secretary to Financial Commissioner, Punjab.

I AM desired to return the original enclosure of your No. 1070, dated 19th October 1882, submitting a proposal for the extension to the Ludhiána District of Financial Commissioner's Book Circular No. 2S., dated 22nd February 1876, on the subject of remissions of revenue for road-side tree cultivation.

2. His Honor the Lieutenant-Governor is pleased to sanction the proposal of the Settlement Officer that the provisions of the circular shall be applied in Ludhiána up to a limit of 47 feet 6 inches in the case of cultivated lands adjoining roadsides, which have been successfully planted with trees. As in the Jhelum District the remissions may extend to the whole of the revenue in unirrigated, and half the revenue in irrigated, lands. I am further to say that the Lieutenant-Governor authorises the Financial Commissioner to extend this concession, as occasion may arise, to all other districts in which he considers it is required, on the understanding that a report of the fact will be made from time to time for the information of Government.

3. His Honor agrees with Mr. Lyall that the correct procedure in such cases will be to include the revenue affected in the engagements, and then to show it in the records as temporarily and conditionally remitted.

No. 244, dated Lahore, 19th April 1894.

From—J. M. Douie, Esquire, Offg. Revenue Secretary to Government, Punjab,

To—The Senior Secretary to Financial Commissioner, Punjab.

I AM directed to acknowledge the receipt of your letter No. 178,* dated 7th March 1894, regarding the expediency of granting remissions of revenue on account of damage caused to crops by the neighbourhood of road-side trees. The rule followed in the Jhelum and Ludhiána settlements was to remit the whole revenue on baráni and half the revenue on cháhi land for a distance of ten kadams from the trees. Excluding Simla, Kulu and Plách, the length of ten kadams in the Punjab varies from 47½ to 55 feet; so these remissions could everywhere be limited to land within the limit of ten kadams. Where ten kadams equal 55 feet revenue under the rule adopted in Jhelum and Ludhiána would be remissible in whole or in part on 13 3 acres per mile, the land on both sides of the road being taken into account. It is only in a few districts' chiefly submontane ones, that any large remission would be claimable and even as regards Gujrát, Captain Davies, estimate is probably exaggerated. Where the trees planted on the sides of Government roads do any material damage to the crops in adjoining fields, the Lieutenant-Governor is in favour of remissions being granted.

* Sub-Head No. 291. File No. 109.

2. The best time for making such remissions is when a land revenue assessment is in progress, and Sir Dennis Fitzpatrick will be glad if the Financial Commissioner will circulate copies of Punjab Government No. 258, dated 3rd November 1882, and the connected correspondence to Settlement Officers. Where no allowance has been made at settlement the Lieutenant-Governor thinks Deputy Commissioners may be allowed to make proposals for remissions on the scale noted above where they find these to be really wanted. The revenue of each holding affected would not be changed, but a part of it would be shown in the jamabandi as remitted during pleasure of Government. The Financial Commissioner would probably be able to pass orders in such cases on statements merely giving total areas, rates of remission, and total remission for each estate affected.

Addenda and Corrigenda to Punjab Revenue Circulars.

Offg. Junior Secretary to Financial Commissioner, Punjab.

(Translated)

No. 755, dated 27th April 1894.

From—The Chief Secretary to Government, Punjab,

To—The Junior Secretary to Financial Commissioner, Punjab.

IN reply to your letter No 162, dated 27th February 1894, I am directed to say that the Lieutenant-Governor is pleased to fix the following as the maximum scale of advances which, with reference to paragraph 8 of the Resolution of the Punjab Government in the Revenue Department, No. 933, dated 18th December 1893, Deputy Commissioners are authorized to make to Tahsíldárs for the purpose of procuring supplies for the camps of the officers named when such supplies must be specially collected :—

		Rs.
For the camp of a Financial Commissioner	...	40
Ditto Commissioner	...	30
Ditto Deputy Commissioner or any of his subordinates	...	20

Experience will probably show that in many districts it will not prove necessary to collect supplies beforehand for the camps of officers of the rank of Tahsíldár or Náib Tahsíldár.

2 The above scale, as already stated, represents the maximum amount of the advances which may be made, and it must be understood that advances of the full amount are not to be made unless this is absolutely necessary

3. The advances may be allowed for each place at which supplies have to be collected, and must be adjusted as soon as the tour for which they are made is completed.

Extract from a letter No. 198, dated 2nd February 1894, from the Offg. Chief Secretary to Government, Punjab, to the Senior Secretary to Financial Commissioner, Punjab.

* * * * *

I am also to say that when any portion of an advance has to be written off against the Provincial Revenues under paragraph 10 of the Resolution, the amount should be drawn on a separate contingent bill, to which should be attached a memorandum briefly explaining why recovery is not possible. The Accountant-General will be instructed to submit for the consideration and orders of Government any such bill if he thinks that sufficient reasons have not been given for writing off the amount.

Proxy papers.

1. The proxy papers received from members of the Senate who were unable to attend were laid before the meeting.

Re-appointment of Dr. M. A. Stein.

2. The Vice-Chancellor first read to the meeting the following proposal submitted by the Syndicate:—

That with reference to Senate Resolution (5) *of the 2nd June* 1893, ***Dr. M. A. Stein be re-appointed to the combined posts of Principal, Oriental College, and Registrar, Panjab University, for a period of five years,***

under Rule 2 of the Rules regulating the appointment, &c., of the officer appointed to the combined posts, sanctioned by the Senate aad Local Government, as from the 1st *February* 1893 (see *para.* 2 *of Syndicate Proceedings, dated* 9*th March* 1894).

In bringing forward the proposal the Vice-Chancellor said it was unnecessary for him to dwell on the manner in which the Registrar had hitherto conducted his duties, as this was already well known to the members present. He felt sure that the Senate would very willingly confirm the resolution of the Syndicate by re-appointing Dr. Stein for a further period of five years from the date of expiry of the first period.

The proposal being then put to the meeting was passed.

Oral Examiners in English and Science, 1894.

3. The next proposal was—

That the list of Oral Examiners in English and Science for the Arts Examinations of 1894, *as recommended by the Syndicate in para.* 3 *of its Proceedings, dated* 1st *February* 1894, *be sanctioned.*

This was accepted without discussion. (*See* Appendix I).

Arts and Medical Examiners, 1894.

4. The following proposal—

That the appointment of the following gentlemen as Examiners for 1894, *in place of others who have been unable to act, be sanctioned :—*

was also passed unanimously.

University and Oriental College Budgets, 1894-95.

5. The 3rd proposal on the list of agenda was—

That the Budget Estimates of the several Accounts of the University and of the Oriental College for the year 1894-95, *as recommended by the Syndicate in its Proceedings, dated* 12*th April* 1894, *be adopted, together with the remarks of the Board of Accounts and of the Oriental College Committee thereon.*

In connection with this proposal the Vice-Chancellor drew attention to the full explanations given by the Board of Accounts as regards the general financial position of the University in their remarks accompanying the Budget Estimates, and stated that all changes of any importance in these Estimates were merely the result of previous resolutions of the Senate. The Vice-Chancellor also in his remarks laid special stress on the

necessity of keeping a sufficient floating balance in the current account in order to meet the heavy demands made on the expenditure side of this account in connection with the expenses for Examiners' fees, &c., which had to be met early in the year and long before the corresponding receipts had been realised. Mr. Allnutt desired to ascertain the Senate's opinion as to whether, in view of the improved financial position of the University as shown by the Budget Estimates of the current year, the time had not arrived for restoring some of the provisions which in the year 1889 had been brought under reduction for financial considerations on the recommendations of a Sub-Committee of which he had been a member. This Sub-Committee in paragraph 6 of their Proceedings, dated 6th April 1889 had recommended that the restoration of the various items in which reductions had been then made should be considered when the University finances would permit thereof. Mr. Allnutt thought that the re-establishment of the four University Scholarships for the Entrance Examination then abolished was the most urgent of these items, and he accordingly moved that two of the scholarships be awarded on the results of the examination of 1894 and that the cost of these two scholarships, *viz.*, Rs. 240, be provided in the current Budget. This was seconded by Dr. Ewing. Considerable discussion ensued in connection with this motion, in which the Vice-Chancellor, Mr. Fanshawe, Mr. Lewis and others took part. Mr. P. C. Chatterji thought it his duty as a member of the Board of Accounts to bring to the special notice of the Senate the necessity of reserving a certain fixed proportion of the estimated income of each year over and above the estimated expenditure as a reserve to meet any emergency, and desired to record his opinion that the Syndicate be invited to formulate a distinct ruling on this principle and to keep it in view when preparing future Budgets.

The Vice-Chancellor thought that the slight difference between the estimated income and expenditure, which amounted only to a little over Rs. 1,400, was not such as to encourage the addition of fixed items of expenditure which would represent a permanent and increasing burden on the current account, while the possibility of the Government grant for the Middle School being reduced was an additional reason why the University should not at present embark on increased expenditure of a permanent character; and he expressed himself particularly against the award of the scholarships, the restoration of which was proposed on the results of this year's examination, which had already been held and at which the candidates had not really competed for these scholarships. Mr. Fanshawe thought that it ought to be a matter for careful consideration which of the items reduced in 1889 on the ground of the Sub-Committee's recommendations, were in reality the most important for the University generally and, therefore, required additional provision in the first instance.

Mr. Bell moved that the resolution proposed by the Syndicate be accepted with an amendment to the effect that the Board of Accounts and Syndicate be instructed to consider carefully in connection with the next Budget (1895-96) all the items of expenditure which had been reduced on the recommendations of the Sub-Committee of 1889, and to endeavour to make such provision for them in that Budget as their relative importance and the financial position of the Universily would justify.

This amended motion was seconded by Dr. Sime, and on being put to the meeting from the Chair was adopted with a majority of 22 votes. Five votes were counted in favor of Mr. Allnutt's proposal as opposed to this amendment. (*See* Appendix II).

Government grant for Middle School Examination.

6. The next proposal was—

That the recommendation contained in the report of the Syndicate's Sub-Committe regarding the Government grant for the conduct of the Middle School Examination be adopted together with remarks of the Syndicate thereon (see Syndicate Proceedings, dated 12th April 1894).

The Vice-Chancellor read to the meeting the opinions of a Sub-Committee of which he and Director, Public Instruction, Panjab, had been members, and pointed out the important financial considerations connected with the maintenance of a Government grant for the Middle School Examination. Some discussion followed, in the course of which Mr. Lewis drew special attention to the importance of retaining, if possible, the full grant originally offerred by Government, which would enable the University eventually on a further improvement of its finances to offer some reward for the valuable services of those Educational Officers who were engaged in serving the University in the onerous and responsible duties of superintendence. The proposal being finally put to the meeting was adopted unanimously. (*See* Appendix III).

Nominations of Examiners for Arts, Oriental and Engineering Faculty Examinations.

7. The following proposal—

That the nomination of (a) Examiners for the Oriental Faculty to translate the question papers set by Arts Examiners unacquainted with the vernacular; (b) of additional Oral Examiners for the Arts Examina-

tions; (c) of an Examiner for the Civil Engineering Examination, as recommended by the Syndicate in paras. 4 (b), 13, 14 and 12 of its Proceedings, dated 9th March 1894, be approved;

was then read and passed. (*See* Appendix IV).

Courses in Sanskrit, Persian and Arabic for Oriental Titles Examinations, 1896.

8. The next proposal was—

That the Courses of Reading in Sanskrit, Persian and Arabic, prescribed for the Oriental Titles Examinations of 1895 be continued for 1896, as recommended by Syndicate in para. 4 (a) of its Proceedings, dated 9th March 1894.

This was adopted without discussion.

Courses in Sanskrit, Persian and Arabic for Arts and Oriental Faculties Examinations, 1896.

9. The next proposal was—

That the Courses of reading in Sanskrit, Persian and Arabic adopted for the several Examinations of the Oriental and Arts Faculties in 1895 be retained for 1896, as recommended in para. 5 of the Proceedings of Syndicate, dated 9th March 1894.

After some remarks from Mr. Allnutt, who pointed out the advisability of selecting the courses of reading in Oriental Languages for the Arts Examinations some time previous to the beginning of the period during which they would have been studied in the Colleges, as was usually done with regard to the courses of reading in English, the above resolution was adopted unanimously.

Regulations for Medical Examinations, 1896.

10. The 9th proposal of the Syndicate was—

That the changes contained in the Revised Regulations for the Medical Examinations passed by the Senate on 26th June 1893 be introduced in the year 1896.

This was adopted after some explanations had been given by the Vice-Chancellor as to the reasons for postponing the introduction of the revised rules for some definite period in the interests of a certain class of candidates.

Rule relating to re-examination of answer-papers.

11. The next proposal was—

That rule 1 of the Rules relating to the re-examination of answer-papers be amended, as proposed by the Syndicate (see Syndicate Proceedings, dated 12th April 1894).

The Vice-Chancellor, in putting this motion before the meeting, stated that by a clerical oversight the words "by not more than 5 marks" had been omitted after the word 'failed" in the wording of the rule as proposed in the Syndicate resolution 14 of the 12th April 1894. In the discussion which ensued in connection with the Syndicate's proposal Mr. T. C. Lewis gave a full account of the practice followed in compiling the results of Examinations in the Cambridge University, with which he was personally acquainted, having acted as an Examiner of that University, and Mr. Bell explained that the Board of Studies' meeting from which the above proposal had originated, had in reality intended the remodelling of the rule regarding the re-examination of answer-papers on the general system underlying the regulation of the Calcutta University and not merely the adoption of the particular wording of rule 14. Mr. Bell accordingly recommended the adoption of an amended rule in the following form :—

"In every examination as soon as the results have been tabulated the Registrar shall prepare a list of the candidates who have failed by not more than five marks in one compulsory subject only and in order to guard against any inaccuracy or undue hardship,

their papers in that subject shall be re-examined by the original examiners, or, in the case of the Middle School Examination, by the Head Examiners on the method of marking already adopted and without any alteration of the standard : Provided that this re-examination be required only in cases where the candidates in the aggregate of the other compulsory subjects has obtained not less than 50 per cent. of the total number of marks."

After Lála Ganga Rám and Lála Lál Chand had pointed out certain objections which existed in their opinion against a rule which would fail to protect candidates who had not obtained 50 per cent. of marks in the aggregate of compulsory subjects, but had otherwise qualified in these subjects under the regulations of the University, against a possible case of inaccuracy in the marking in that subject in which they have failed to obtain pass marks, Mr. P. C. Chatterji proposed an amendment to the effect that the suggested revision of the rule relating to the re-examination of answer-papers be referred to the Syndicate for further careful consideration and that in the meantime the rule as previously sanctioned by the Senate and Local Government be continued in force. This amendment was seconded by Dr. Orbison. After Mr. Bell had asked and obtained the permission of the meeting for withdrawing his previous amendment, the amended motion as proposed by Mr. Chatterji was put from the Chair and carried.

Medical Scholarships.

12. The 11th proposal of the Syndicate was—

That in future the Medical Scholarships maintained by the University be awarded by the Principal of the Medical College, who in his selection will be guided by the results of the Sessional Examinations and will report the names of the selected candidates to the Syndicate, as recommended in para. 8 *(a) of the Proceedings of the Syndicate, dated 9th March* 1894.

This was approved.

Recognition of Panjab University Medical Degrees and Licenses.

13. The Syndicate had next proposed—

That the letter from the Registrar, General Council of Medical Education of the United Kingdom, to the effect that the Medical Degrees and Licenses of the Panjab University have been recognised by the Council under Section 13 *of the "Medical Act,"* 1886, *be recorded* (vide *para.* 18 *of the Proceedings of the Syndicate, dated 9th March* 1894).

The Senate in adopting this proposal recorded its satisfaction at the recognition which had thus been secured for the University Medical Degrees and Licenses.

Proposal of affiliation.

14. The next proposal—

That with reference to a letter from the Secretary, Gilchrist Educational Trust, measures be taken to secure the affiliation of the Panjab University to the University of Cambridge (see *para.* 28 *of the Proceedings of Syndicate, dated 9th March* 1894) ;

was passed unanimously after the Vice-Chancellor had explained that the corresponding affiliation to the sister University of Oxford had already been obtained by him in 1890.

Examiner in Zoology and Physiology.

15. The next proposal was—

That the recommendation contained in the Medical Faculty Proceedings, dated 3rd April 1894, *regarding the appointment of an Examiner to look over answer-papers in Zoology and Physiology of the First L. M. S. and M. B. Examinations,* 1894, *be sanctioned.*

This was adopted without discussion. (*See* Appendix V.)

Nomination of Fellows to Faculties.

16. The Syndicate had proposed—

That, agreeably to their request, Messrs. Douie and Dallinger be appointed to the Arts Faculty, and that Mr. Shah Din be nominated to the Oriental, Arts, Law and Science Faculties (vide *para.* 20 *of the Syndicate Proceedings, dated 9th March* 1894).

In connection with this proposal Mr. Allnutt raised the question whether some measures should not be taken for the future to ascertain previous to nomination of Fellows to the various Faculties the opinion of these Faculties as regards the qualifications of newly-appointed Fellows to serve on particular Faculties. The Vice-Chancellor pointed out that in submitting the requests of the newly-nominated Fellows to the Senate without previous

consultation of the Faculties, the Syndicate had followed the practice established since the foundation of the University. After some discussion, in which Mr. Channing, Mr. Bell, Mr. Shah Dín and others took part, Dr. Sime proposed and Mr. Allnutt seconded as an amended motion that the nominations contained in the Syndicate's resolution be accepted and that the Syndicate be requested to submit proposals for the suitable revision of rule 21 (*a*) on the Constitution of the Faculties with special regard to the opinions expressed by the members of the Senate.

Oriental College Committee Proceedings, dated 10th February 1894.

17. The last proposal before the Senate was—

That the temporary arrangements for carrying on the work of the late Head Pandit, Oriental College, as proposed by the Oriental College Committee in their Proceedings of the 10*th February* 1894, *be approved.*

In connection herewith the Vice-Chancellor pointed out that in consequence of the subsequent death of Pandit Guruprasáda, M. M., the Oriental College Committee and Syndicate had taken measures to appoint a suitable successor to the post of Head Pandit, Oriental College, and he accordingly moved the addition of the following words to the above resolution:—

"And also the probationary appointment of Pandit Shivadatta, of Jaypur, to the post of Head Pandit, Oriental College, for a period of three months on a salary of Rs. 125 per mensem on the understanding that in the event of his giving satisfaction during this period he will then be appointed permanently to the post as recommended by the Syndicate in their Proceedings of 24th April 1894."

This amended resolution being put to the vote was carried unanimously. (*S* Appendix VI.)

18. After the Vice-Chancellor had thanked the members present for their numerous attendance, the proceedings of the meeting terminated.

APPENDIX II.

Extract from Syndicate Proceedings, dated 12th April 1894.

The Syndicate next considered the Budget Estimates of the several Accounts of the University, as prepared by the Board of Accounts, together with the remarks thereon, as contained in the Board's Proceedings of the 10th April 1894.

The Vice-Chancellor explained in detail the calculations upon which the Estimates for the various heads on the Receipt and Expenditure sides had been based. The Syndicate fully endorsed the Board's recommendations as to the necessity of maintaining extreme caution in regard to expenditure and of restricting it within its present limits with a view to maintaining the sound financial position which had now been secured for the University, and further approved the proposal of placing the sum of Rs. 10,000, out of the total cash balance available in the Current Account, as a deposit in the Bengal Bank bearing interest at the rate of 2½ per cent. per annum.

The Budget Estimates of the several University Accounts, together with those of the Oriental College, as shown in the Oriental College Committee's Proceedings of the 10th April, were then passed, and it was resolved that they be submitted as well as recommendations of the Board of Accounts to the Senate for adoption.

Proceedings of the Board of Accounts at a meeting held in the Senate Hall, Lahore, on Tuesday the 10th April 1894, at 5-30 P. M.

REV. J. C. R. EWING, M. A., D. D. | R. B. P. C. CHATTERJI, M. A., B.L.

DR. M. A. STEIN, *Registrar.*

1. The Account Books of the University for the past financial year were laid before the meeting. It was resolved that Dr. Ewing, as a member of the Board, be requested to

2. The Budget Estimates of the several Accounts for 1894-95 were laid before the Board, as prepared by the Registrar. The Board first examined the estimates of the Current Account Budget, and ascertained under the several heads of the Receipt that the figures had been calculated after careful reference to the amounts actually realised in the preceding year under the corresponding heads.

3. With reference to the expenditure side of the Budget, the Board had occasion to notice particularly the large increase shown under the head of Fees to Arts and Medical Examiners, which was caused by the revised rules for the remuneration of Examiners and the re-examination of answers in certain cases. It was mainly to this largely increased expenditure that the Board had to attribute the fact of the total expenditure estimated for the year approaching so closely the expected total of receipts, and thus leaving only a probable balance of about Rs. 1,400 at the end of the year. These figures, in the opinion of the Board, clearly indicate the necessity of extreme caution being maintained in restricting the expenditure of the Current Account within its present limits.

4. The Board also considered it advisable to point out that though the total balance anticipated for the close of the Budget year is substantial, and shows a healthy condition of the University's finances, the retention of a large cash balance in hand is absolutely necessary, in order to meet the large payments due to Examiners, Superintendents and others at the beginning of the financial year, which can only be recovered towards the end of the financial year. It is only thus possible to avoid the difficulty which the University experienced in previous years in its endeavour to pay the remuneration due to Examiners within a reasonable period after the completion of their work.

At the same time, while allowing a full margin for such expenditure, which had to be met in the early part of the year and in anticipation of the corresponding receipts, the Board recommend that a sum of Rs. 10,000 out of the balance of the Current Account, at present in hand at the Bank of Bengal, be allowed to remain in that Bank as a deposit bearing interest at Rs. 2-8-0 per cent.

5. In connection with the Budget provision for the lecturing staff of the Law School, the Board had occasion to consider an application from the Law Lecturer for increase of his salary, in which reference was made to the increased receipts expected from the Law School during the ensuing financial year. The Board was of opinion that it was yet too early to form any accurate estimate as to the probable excess of income from admission, tuition and examination fees for the current year. As the financial results referred to in the application depended on these sources of income, which are problematical, the Board did not feel in a position to recommend the grant of the request, but suggested its consideration towards the close of the year, when the financial results could be gauged with greater certainty.

6. The Registrar thought it his duty to bring to the notice of the Board that the pay of the Record-keeper, who had rendered for a number of years past particularly valuable services, was to reach the maximum hitherto provided for by the increment due in the ensuing year, and to express his opinion that these services on account of their special value fully deserved of further encouragement.

The Board, whose members were personally aware of the zealous manner in which the Record-keeper had carried on his responsible and heavy work, endorsed the opinion expressed by the Registrar regarding the value of these services, but having regard to the fact that an increment of pay was already provided under a previous resolution of the Senate, resolved that the consideration of the Record-keeper's claim for higher remuneration be postponed to the next year.

7. With reference to other applications for increase of pay from servants employed in the Petty Establishment of the University, the Board resolved to recommend that the pay of the Daftri be raised by one rupee per mensem, in view of the increased work thrown upon him in consequence of the larger number of candidates for the various examinations, and with regard to his efficient services.

The consideration of an application from the Senate Hall Bearer was deferred till next year, in view of the comparatively short period of his sevice.

8. The estimates for the Current Account were then passed as shown in Appendix A.

The estimates of the remaining Accounts were also, after careful scrutiny of the figures shown for receipts and expenditure, recommended to the Syndicate for adoption.

Oriental College Budget, 1894-95.

1. The Principal, Oriental College, submitted estimates of the Oriental College Budget for 1894-95, in which the salaries of the teaching staff and others were shown in accordance with previous resolutions of the Syndicate and Senate. The Principal having brought to the special notice of the Committee the efficient services rendered by the Clerk of the College, who had discharged since 1889 his responsible duties in a very creditable manner and to the Principal's full satisfaction, the Committee resolved to recommend that he be granted as a reward for his efficient work an increase of Rs. 5 per mensem to his salary. Another slight change proposed in the Budget Estimates was the addition of Rs. 2 per mensem under the head of Furniture of Boarding Houses, in order to provide for certain indispensible improvements in the accommodation for students.

After careful scrutiny of the Estimates prepared on the above lines, it was resolved that they be submitted to the Syndicate for adoption as shown in Appendix A.

Proceedings of the Sub-Committee appointed by the Syndicate to consider the question of the gradual withdrawal of the Government Grant for the Middle School Examination, at a Meeting held at the Vice-Chancellor's residence, on Saturday, the 24th March 1894, at 4 p. m.

PRESENT:

W. H. RATTIGAN, Esq., LL.D., *Vice-Chancellor, in the Chair.*

J. SIME, Esq., LL.D. | Dr. M. A. STEIN, *Registrar.*

1. The Sub-Committee was appointed by the Syndicate to consider and to report on the proposals contained in letter, No. 2336, dated 8th September 1893, from the Director, Public Instruction, Panjab, in which the University was asked to express an opinion as to whether in view of its improved financial condition and the receipts realised from fees for the Middle School Examination since 1889, it could agree to a gradual reduction of the annual grant of Rs. 5,000 hitherto paid by the Local Government.

Detailed statements showing the income realised from fees and the expenditure incurred in connection with the Middle School Examination from 1884—1894 were placed before the Meeting.

2. Before proceeding to consider the financial questions involved in the conduct of the Middle School Examination on a reduced grant, the Sub-Committee thought it their duty to examine the possibility of dispensing with the examination as an educational standard. In this connection it appeared to the Sub-Committee that, having regard to the following points in favor of maintaining this examination, *viz.*, (1) that Vernacular students mostly terminate their studies at this standard, (2) that many Anglo-Vernacular candidates after passing this examination are able to obtain employment on the strength of the certificate for this examination, which qualifies for certain classes of Government service, (3) that such a public examination is desirable for the purpose of awarding scholarships tenable in High Schools, and (4) that this examination affords a good gauge of the progress of Secondary Education in its middle stage,—the time had not yet come when the Middle School Examination test could be properly abolished.

3. It being assumed that the retention of the Middle School Examination was desirable, the Sub-Committee proceeded to consider the question whether it was an examination over which the University should continue to exercise control.

In regard to this question, the Sub-Committee were agreed that such control was desirable, as it enabled the University to influence the educational system of the Province in the stages leading up to its Entrance Examination. But the Sub-Committee also thought that this general desire must necessarily be subordinated to financial considerations, as the circumstances were not such as to warrant the University imposing upon its Officers and Establishment the heavy work connected with the examination, unless the income derived from it represented a reasonable compensation for the time and labor so occupied.

4. Then with reference to the proposal to reduce the Government grant, and having regard to the distinct undertaking under which the University was originally promised a grant of Rs. 5,000 for undertaking the control of the Middle School Examination in 1884 (*see* Senate Proceedings, dated 29th December 1883), and also taking into account that the conduct of the Examination entails a considerable strain on the University Office, occupying the Assistant Registrar and the Establishment during not less than four months every year, as well as a large portion of the Registrar's time, the Sub-Committee felt that they could not advise the continued conduct of the examination if the grant of the Local Government were to cease entirely in 1897-98 as proposed in the above letter. But in order to meet the views of Government as far as possible, and to give effect to their own opinion as to the desirability of controlling the Middle School Examination, the Sub-Committee resolved to recommend, as a modified proposal, that the grant be reduced in 1896-97 to Rs. 3,000, and in 1897-98 to Rs. 2,000, at which amount the grant should remain fixed prospectively.

5. This proposal was suggested on the understanding that the rule hitherto followed of placing the services of Head Masters and Masters of the Board and Aided Schools gratis at the disposal of the University for the purposes of superintending the Middle School Exa-

mination would be continued, as without such a rule the expenditure for superintendence of the examination would be increased to such an extent as to render it financially impracticable for the University to conduct it. The Sub-Committee in making their proposal dependent on this condition were guided also by the consideration of the great difficulty of getting any other qualified agency for the superintendence of the examination.

Registrar.

APPENDIX III.

Extract from Syndicate Proceedings, dated 12th April 1894.

The Vice-Chancellor read and explained fully the report (*see* Appendix II) of the Sub-Committee appointed by the Syndicate to consider the question of the gradual withdrawal of the Government Grant for the conduct of the Middle School Examination.

After careful consideration of the several questions involved, the Syndicate adopted the recommendation of the Sub-Committee for submission to the Senate, but resolved at the same time to express a hope that Government would still see its way to continue the grant to the extent hitherto allowed, which the University was originally led to expect by the terms of the Government letter would be permanent, in view of the great amount of labor and responsibility involved in the conduct of the examination, as well as the prospective increase of the expenditure on account of fees to Examiners, and the comparative smallness of the saving which would be effected by the possible reduction.

LAHORE, THURSDAY, JUNE 7, 1894.

PART III.

Notifications by Chief Court, Financial Commissioners, Accountant-General, &c.

CHIEF COURT OF THE PUNJAB.

BOOK CIRCULAR No. III—2488 G.

To

ALL CIVIL COURTS IN THE PUNJAB.

Dated Lahore, the 22nd May 1894.

Subject.

Directions as to the record of pleadings and the examination of the parties in Civil suits before issues are drawn.

NOTWITHSTANDING the explicit nature of the provisions of Chapter IX of the Code of Civil Procedure, and of the instructions given in paragraphs 26 to 32 (inclusive) of Judicial Circular No. I of the volume of Judicial Circulars, 3rd edition, the Judges find that the courts do not in all cases conduct a thorough examination of the parties before drawing issues.

2. At the first hearing of a suit the first duty of the court is to read over, or cause to be read over, to the defendant or his pleader or agent, in a language that he understands, the plaint, paragraph by paragraph, and to ask him whether he admits or denies each allegation of fact made therein. The court should record the defendant's admission or denial of each allegation of fact, or any explanation in regard thereto which the defendant may desire to make. When this has been done each party will be similarly called on to admit or deny each allegation of fact made in the written statement (if any) of the opposite party, and the replies made will be recorded.

The court should then proceed to formally examine each party as to all matters in conflict between them until the points in dispute have been reduced to definite questions of fact and law.

The examination of parties or of persons able to answer material questions, not of pleaders, must be on oath or solemn affirmation, as provided in Section 147, Code of Civil Procedure. A pleader, as such, has no authority to make allegations of fact not within his personal knowledge.

3. Where a question of law is raised the party raising it should be called upon to explain fully the grounds on which it is based and the provision of the law relied upon. A bald plea that "the suit is barred by limitation," or that the claim or any matter in issue is "*res judicata*," or that Section 43, Civil Procedure Code, is a bar to it, should not be accepted. The party should be called upon to state all the facts necessary to establish the plea, and also the specific provision of the law on which he relies. In a plea intended to be under Section 13 or Section 43, Civil Procedure Code, he must specify the suit, or the suit and judgment, upon which he relies, in such a manner as to enable the same to be produced, if necessary.

4. In order to ensure due compliance with these instructions, the Judges are pleased to prescribe four forms for recording the pleadings of the parties, namely—

Form No. CXVIII A.—Sheet for the reply of the defendant to the plaint.

Form No. CXVIII B.—Sheet for the record of the admission or denial of allegations contained in the written statement of parties.

Form No. CXVIII C.—Sheet for the examination of the plaintiff or some person on his behalf.

Form No. CXVIII D.—Sheet for the examination of the defendant or some person on his behalf.

Where there are more defendants than one, and the defence of all the defendants is not identical, each defendant having a distinct defence to put forward must be separately dealt with, in regard to his reply both to the plaint and to the written statement of the plaintiff, and in regard to his examination under Section 118 of the Code.

5. Form No. CXVIII E is also prescribed for recording the statements of the parties at the first hearing as to the documents to be produced by them under Section 138 of the Code.

6. Appellate and controlling courts are required to see that these forms are invariably used, and that the provisions of Sections 117 and 118 of the Code are carefully observed by all subordinate courts.

7. Attention is called to the instructions contained in paragraph 29 of Judicial Circular No. I as to the framing of issues. Whether the points in dispute be questions of fact or of law, they should be clearly and definitely recorded in the form of a proposition to be decided by the court. If the pleadings are recorded as required by law and explained above, the framing of correct and definite issues should not be a matter of difficulty. It is only when the presiding judge fails to make clear to his own mind what the actual points to be decided are that he is unable to record them in an intelligible manner.

By order, &c.,
